ASSIGNMENT OF PATENT

WHEREAS, we, John M. Greenwood, Jr. of 4212 Old Hickory Lane Williamsville, NY 14221, Van Ness Harwood, Jr. of 26 The Spur, Williamsville, New York 14221 and Oakland J. Weatherup, of 6214 North Tonawanda Creek Road, Lockport, New York 14094 have invented certain new and useful improvements in **MULTIPLE ANODE HIGH ENERGY DENSITY ELECTROLYTIC CAPACITOR**, Case number CA-257, for which invention an application for Letters Patent of the United States of America was executed concurrently herewith on March 18, 1998.

AND WHEREAS, **CM COMPONENTS, INC.** (hereinafter Assignee), a corporation of the state of New York, with a principal place of business at Suite 1, 90 Curtwright Drive, Williamsville, New York 14221 is desirous of acquiring the entire right, title and interest in and to said invention, said application and in and to any Letters Patent to be granted thereon in the United States and countries foreign thereto.

NOW, THEREFORE, be it known by all whom it may concern, that for and in consideration of one dollar (\$1.00) in hand paid and other valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we do hereby warrant that we have full unencumbered ownership of said invention and application hereby assigned; and we have assigned, sold and transferred, and do hereby assign, sell and transfer unto Assignee, its successors or assigns our entire right, title and interest in and to said invention, said application and any continuation, continuation-in-part, or division thereof relating in whole or in part to said invention, any said Letters Patent and any Reissue thereof, which may be granted on said invention, said application and any said continuation, continuation-in-part or division thereof, and any and all other rights or benefits accrued, accruing or to accrue to us with respect to said invention and application in both the United States and countries foreign thereto including, but not limited to, priority rights, convention rights, rights of reexamination, extension or renewal, and rights to file applications for, secure and maintain Patents, Inventor's Certificates, Utility Models, Utility Certificates, and Industrial Design Registrations.

And we agree to sign and properly execute such necessary and lawful papers and to do such necessary and lawful acts, as may be required by said Assignee, its successors or assigns, to properly obtain and/or maintain any and all rights assigned, sold and transferred hereinabove.

And we further authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to said Assignee, its successors or assigns, as the owner of the entire right, title and interest thereto.

In witness whereof, we have executed this assignment.
