ASSIGNMENT NUNC PRO TUNC

WHEREAS, I, **GEORGE M. WHITESIDES**, a citizen of the United States of America, residing at 124 Grassmere Drive, Newton, Massachusetts 02158, am one of two inventors having invented certain inventions and improvements disclosed in an application for Letters Patent entitled "**METHOD OF CONTACT PRINTING ON GOLD COATED FILMS**", filed in the United States Patent and Trademark Office on December 18, 1996, and assigned U.S. Patent Application No. 08/769,594. The other inventor is **DENNIS S. EVERHART**; and

WHEREAS, **KIMBERLY-CLARK WORLDWIDE, INC.**, a corporation organized under the laws of the State of Delaware, having a principal place of business at 401 North Lake Street, Neenah, Wisconsin 54956, is desirous of acquiring an interest in the same;

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, **GEORGE M. WHITESIDES**, by these presents do sell, assign and transfer unto **KIMBERLY-CLARK WORLDWIDE, INC.**, the full, exclusive and entire right, title, and interest in and to said application, in and to any divisions, continuations, and reissues thereof, and in and to all inventions and improvements disclosed and described in said application, to the extent: (1) that no Harvard resources or facilities were used to create such improvements; and (2) that said inventions and improvements do not form part of the disclosure of, and are patentable over, any previously-filed patent applications, previously submitted publication, or previously made invention of **GEORGE M. WHITESIDES** and/or his colleagues at Harvard University, preparatory to obtaining Letters Patent of the United States therefor; and I hereby request the Commissioner of Patents and Trademarks to issue any and all Letters Patent of the United States resulting from

said application, or from a division, continuation, or reissue thereof, to **KIMBERLY-CLARK WORLDWIDE, INC.**, as the assignee, for its interest and for the sole use and benefit of **KIMBERLY-CLARK WORLDWIDE, INC.**, and its assigns and legal representatives;

For the same consideration, I, by these presents do sell, assign, and transfer to **KIMBERLY-CLARK WORLDWIDE, INC.** the full, exclusive, and entire right, title and interest in and to any foreign application or applications corresponding to said application, to the extent: (1) that no Harvard resources or facilities were used to create such improvements; and (2) that said inventions and improvements do not form part of the disclosure of, and are patentable over, any previously-filed patent applications, previously submitted publication, or previously made invention of **GEORGE M. WHITESIDES** and/or his colleagues at Harvard University, in whole or in part, in countries other than the United States, in and to any Letters Patent and similar protective rights granted on said foreign applications to the extent that said inventions and improvements are patentable over any previously filed patent applications wherein **GEORGE M. WHITESIDES** and/or his colleagues at Harvard University are inventors on those previously-filed patent applications, and in and to the right to claim any applicable priority rights arising from or required for said foreign applications under the terms of any applicable conventions, treaties, statutes, or regulations; said foreign applications to be filed and issued in the name of **KIMBERLY-CLARK WORLDWIDE, INC.**, or its designee insofar as permitted by applicable law.

AND, for the same consideration, I agree to sign all lawful papers, execute all divisions, continuations, reissues and other applications, make all assignments and rightful oaths, and generally do everything possible to aid **KIMBERLY-CLARK WORLDWIDE, INC.**, its successors, assigns, and nominees, to

obtain and enforce proper protection for all said inventions and improvements in all countries throughout the world.

This Assignment is expressly made NUNC PRO TUNC to have the same legal force and effect as if executed on **December 18, 1996** (the filing date of the above-referenced patent application).

Date: 5/4/98

GEORGE M. WHITESIDES
