## COLLATERAL ASSIGNMENT OF INTELLECTUAL PROPERTY

**THIS COLLATERAL ASSIGNMENT OF INTELLECTUAL PROPERTY** (this "Assignment") is made as of the date set forth below by and between (i) GINSEY INDUSTRIES, INC., a Pennsylvania corporation (the "Assignor"), and (ii) ALLIED CAPITAL CORPORATION and ALLIED INVESTMENT CORPORATION, both Maryland corporations (together, the "Assignee").

Assignor is the owner of the entire right, title and interest in and to the patents and trademarks described in Schedule A annexed hereto and made a part hereof. Assignee is contemporaneously herewith lending to Assignor Five Million Five Hundred Thousand Dollars (\$5,500,000.00) under the terms of certain Debentures, an Investment Agreement (the "Investment Agreement"), and other agreements executed in connection therewith (hereinafter collectively, the "Agreements"). Capitalized terms used herein not otherwise defined have the meanings given them in the Investment Agreement.

NOW THEREFORE, in consideration of the premises and the covenants herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and accepted, the undersigned parties agree as set forth below.

**1. Grant of Security Interest.** Assignor hereby collaterally assigns to Assignee all of Assignor's now-existing or hereafter acquired right, title and interest in and to any patents and trademarks including, but not limited to, those identified in Schedule A; all patent and trademark applications relating in any way to the subject matter of the patents and trademarks identified in Schedule A and all reissues, renewals, extensions, continuations, continuations-in-part and divisions thereof (hereinafter collectively, the "Intellectual Property"); and any and all proceeds thereof, including, without limitation, any claims by Assignor against third parties for infringement of the Intellectual Property (hereinafter together with the Intellectual Property, the "Collateral"), subject and subordinate only to the Senior Debt.

**2. Obligations Secured.** This assignment is made to Assignee to secure repayment of the Senior Subordinated Debentures, whether arising under such debentures or under this Assignment or by operation of law or otherwise (hereinafter collectively the "Obligations").

**3. Warranties And Covenants.**

A. **Payment.** Assignor will pay and perform all of the Obligations according to their terms.

B. **Good Title.** All of the existing Intellectual Property identified on Schedule A is valid and subsisting in full force and effect, such Intellectual Property represents all of the intellectual property owned by Assignor and used in or necessary for the conduct of the business of the Company, Assignor owns the sole, full and clear title thereto and the Assignor has right and power to grant the assignments granted hereunder. The Collateral is not subject to any liens, claims, mortgages, assignments, licenses, security interest or encumbrances of any nature whatsoever, except the assignment granted hereunder and the Permitted Encumbrances.

C. **No Transfer.** Assignor will not assign, sell, mortgage, lease, transfer, pledge, hypothecate, grant a security interest in or lien upon, encumber, grant an exclusive or non-exclusive license relating to, or otherwise dispose of any of the Collateral without the prior written consent of

Assignee to any such action, except as such action is expressly permitted hereunder or under the Investment Agreement and any security interest granted to the holder of the Senior Debt.

D. Lien Perfection. Assignor will, at Assignor's expense, perform all acts and execute, perfect, maintain, record or enforce the assignment in the Collateral or to otherwise further the provisions of this Assignment. Assignor hereby authorizes Assignee to execute and file one or more financing statements (or similar documents) with respect to the Collateral, signed only by Assignee.

E. Power of Attorney. Assignor will, concurrently with the execution and delivery of this Assignment, execute and deliver to Assignee ten (10) originals of a Power of Attorney in the form of Exhibit B annexed hereto for the implementation of the assignment, sale or other disposition of the Collateral pursuant to Assignee's exercise of the rights and remedies granted to Assignee hereunder.

F. Litigation. Assignor has no knowledge of any rights, claims or other encumbrances that purport to preclude Assignor from conducting its business, and Assignor has no knowledge of any claim that its use of the Intellectual Property has or will violate any rights, or support any claim of infringement or other claims, of any other person or entity. Assignee may, in its sole discretion, pay any amount or do any act which Assignor fails to do or pay as required hereunder or as requested by Assignee to preserve, defend, protect, maintain, record or enforce the Obligations, the Collateral, or the assignment granted hereunder, including without limitation, filing fees, court costs, travel expenses and attorneys' fees. In the event any of the Intellectual Property is or becomes the subject of any litigation, Assignee shall at its option have the sole right to control such litigation, select counsel, determine whether settlement shall be offered or accepted, determine and negotiate all settlement terms and be indemnified by Assignor for all costs of litigation and settlement including, without limitation, all costs, expenses and attorneys' fees. Assignor will be liable to Assignee for any payments under this paragraph which shall be deemed reasonable expenses under the terms of the Agreements.

G. No Other Intellectual Property; No Pending Applications. As of today, Assignor has no Intellectual Property issued by, or the subject of pending applications in, the United States Patent and Trademark Office or any similar office or agency in the United States or any other country, other than those described in Schedule A annexed hereto.

H. Subsequent Applications. In the event Assignor shall file any application for the issuance of a patent or trademark with the United States Patent and Trademark Office or any similar office or agency in the United States or any other country, Assignor shall provide written notice to Assignee of such action within sixty (60) days after making such application. Upon request of the Assignee, Assignor shall execute and deliver to Assignee any and all assignments, agreements, instruments, documents and such other papers as may be requested by Assignee to effect an assignment of such application to the Assignee.

I. No Abandonment. Assignor has not abandoned any pending patent or trademark application, unless otherwise indicated on Schedule A and Assignor will not do any act, nor omit to do any act, whereby the patents or trademarks which are necessary for the conduct of Assignor's business may become abandoned or unenforceable. Assignor shall notify Assignee immediately if it knows or has reason to know of any reason why any application, trademark or patent may become abandoned, invalidated or the subject of any suit.

J. **Maintenance.** Assignor will render any assistance necessary to Assignee without cost in any proceeding before the United States Patent and Trademark Office or any similar office or agency in the United States or any other country to maintain each application and Intellectual Property, including, without limitation, filing of renewals and paying annuities.

K. **Notify.** Assignor will promptly notify Assignee if Assignor (or affiliate or subsidiary thereof) learns of any use by any person of any infringement of the Intellectual Property. If requested by Assignee, Assignor, at Assignor's expense, shall join with Assignee in such action as Assignee, in Assignee's discretion, may deem advisable for the protection of Assignee's interest in and to the Intellectual Property.

L. **Indemnification.** Assignor assumes all responsibility and liability arising from the use of Intellectual Property and Assignor hereby indemnifies and holds Assignee harmless from and against any claim, suit, loss, damage or expense (including attorneys' fees) arising out of any alleged defect in any product manufactured, promoted or sold by Assignor (or any affiliate or subsidiary thereof) in connection with acts or omissions of Assignor in connection with any Intellectual Property or out of the manufacture, promotion, labeling, sale or advertisement of any such product by Assignor (or any affiliate or subsidiary thereof).

4. **Remedies of Assignee.** Upon the occurrence of an Event of Default (and subject to applicable cure periods) under the Investment Agreement and in addition to all other rights and remedies of Assignee, whether provided under law or otherwise, Assignee shall have the following rights and remedies which may be exercised without notice to, or consent by, Assignor except as such notice or consent is expressly provided for herein.

A. **Stop Use.** Assignee may require that neither Assignor nor any affiliate or subsidiary of Assignor make any use of the patented inventions or the registered-marks subject hereto for any purpose whatsoever.

B. **Licenses.** Upon ten (10) days' notice to Assignor, Assignee may grant such license or licenses relating to the Collateral for such term or terms, on such conditions, and in such manner, as Assignee shall in its sole discretion deem appropriate. Such license or licenses may be general, special or otherwise, and may be granted on an exclusive or nonexclusive basis throughout the United States of America, its territories and possessions and all foreign countries.

C. **Sale.** Upon ten (10) days' prior notice to Assignor, Assignee may assign, sell or otherwise dispose of the Collateral or any part thereof, either with or without special conditions or stipulations. Assignee shall subject to the limitations of the Uniform Commercial Code have the power to buy the Collateral or any part thereof, and Assignee shall also have the power to execute assurances and perform all other acts which Assignee may, in Assignee's sole discretion, deem appropriate or proper to complete such assignment, sale or disposition.

D. **Power of Attorney.** In addition to the foregoing, in order to implement the assignment, sale or other disposition of any of the Collateral pursuant to Subparagraph 4(C) hereof, Assignee may at any time execute and deliver on behalf of Assignor, pursuant to the authority granted in the Powers of Attorney described in Subparagraph 3(E) hereof, one or more instruments of assignment of the Collateral (or application, letters patent or recording relating thereto), in form suitable for filing, recording or registration. Assignor agrees to pay when due all costs incurred in any such transfer of the Collateral, including, but not limited to, any taxes, fees and attorneys' fees.

E. Application of Proceeds; Deficiency. Assignee may first apply the proceeds actually received from any such license, assignment, sale or other disposition of Collateral to the reasonable costs and expenses thereof, including, without limitation to, reasonable attorneys' fees and all legal, travel and other expenses which may be incurred by Assignee. Thereafter, Assignee may apply any remaining proceeds to such of the Obligations as Assignee may in its sole discretion determine. Assignor and any guarantors of the Obligations shall remain liable to Assignee for any expenses or Obligations remaining unpaid after the application of such proceeds, and Assignor will pay Assignee on demand any such unpaid amount, together with interest at the interest rate set forth in the Debentures.

F. Trade Secrets. In the event that any such license, assignment, sale or other disposition of the Collateral (or any part thereof) is made after the occurrence of an event of default under any of the Obligations, Assignor shall supply to Assignee or Assignee's designee, Assignor's knowledge and expertise relating to the manufacture and sale of the products according to the patented inventions, Assignor's customer lists and other records relating to the distribution of said products.

G. Non-Exclusive Remedies. Nothing contained herein shall be construed as requiring Assignee to take any such action at any time. All of Assignee's rights and remedies, whether provided under law, the Agreements, this Assignment or otherwise shall be cumulative and none is exclusive. Such rights and remedies may be enforced alternatively, successively or concurrently.

H. Subordination to Senior Debt.
