ASSIGNMENT OF PATENTS AND RELEASE OF LIEN

WHEREAS GELTECH, Inc., a Delaware corporation located at 367 Progress Drive, Suite B, Orlando, Florida 32826 (herein "Assignee") had granted, assigned and conveyed to Rebuilding Service, Inc., a Florida corporation located at 2022 Hendricks Avenue, Jacksonville, Florida 32207 (herein "Assignor") a security interest in all patents listed on Appendix A (the "Patents"). The Patents are owned by the University of Florida or the University of Florida Research Foundation (alternatively the "Owner") and were licensed to the Assignee. The Patents include, without limitation, all issued patents, patents pending and patent applications of the Assignee whether now or hereafter issued or filed and all continuations, divisions and reissues thereof, whether owned by the Assignee or in which the Assignee has a contractual right or interest as licensee or otherwise, and all the technology and inventions underlying the Patents. The assignment of the Patents were originally recorded on the dates and at the locations set forth in Appendix A.

NOW, THEREFORE, in consideration of the fact that the lien secured by the Patents has been released by the Assignor, Assignor hereby releases the assignment of the security interest and transfers to the Owner, the entire right, title and interest in and to the Patents.
