ASSIGNMENT

WHEREAS, I, JAMES M. SLAVICEK, residing at 2195 Gnarled Pine Drive, Dublin, Ohio 43016, having invented, **METHOD OF ISOLATING STRAINS OF THE LYMANTRIA DISPAR NUCLEAR POLYHEDROSIS VIRUS**, Serial Number: 08/943,785, Filing Date: 10/3/98 for which I am making application for Letters Patent of the United States; and,

WHEREAS, the United States patent rights in said invention are assignable to the United States by virtue of my having made the invention while in the employ of the United States Department of Agriculture under applicable law and regulations of the United States Department of Agriculture which render said patent rights so assignable; and

WHEREAS, the United States, as represented by the Secretary of Agriculture, is desirous of acquiring an assignment of said patent rights;

NOW, THEREFORE, in consideration of these premises, I hereby assign said patent rights to the United States of America, as represented by the Secretary of Agriculture;

I further grant to the Government of the United States a nonexclusive, irrevocable, royalty-free license in any patent which may issue on said invention in any foreign country, including the power to issue sublicenses for use in behalf of the Government and/or in furtherance of the foreign policies of the Government;

Still further, I shall not employ such foreign patents to bar the sale or use, in any foreign country, of materials which are manufactured or otherwise produced essentially in the United States; Rather, I shall grant patent licenses therein, at reasonable terms, to permit such sale or use; Provided, that I shall not be compelled to grant such licenses in any foreign country where said materials are staple articles or commodities of commerce suitable for substantial use other than in infringement of such patents.

James M. Slavicek
