The undersigned Inventor(s), in recognition of their obligations to assign inventions to Sonic Development Laboratories, and pursuant to the obligations of Sonic Development Laboratories to the Government under the above identified Cooperative Research and Development Agreement, hereby assign to the United States of America, subject to a worldwide, non-exclusive, nontransferable, irrevocable and fully paid-up license which is hereby reserved to Sonic Development Laboratories, all right, title and interest to each invention disclosed and claimed in the above U.S. Patent Application.

The license reserved to Sonic Development Laboratories shall extend to all existing and future associated and affiliated companies, if any, within the corporate structure of which Sonic Development Laboratories is a part and shall be assignable to the successor of that part of the Contractor's business to which such inventions pertain.

The Inventor(s) further agree to assist Sonic Development Laboratories and the Government, upon request by furnishing any available information and documents, and by performing all acts and doing all things which may be reasonably necessary to make this assignment effective.

Sonic Development Laboratories joins in and agrees to the foregoing assignment, and except for the above reservations of a license relinquishes and assigns all right, title and interest in and to such invention, and further agrees to furnish to the United States of America, upon request, any available information and documents necessary for the prosecution of the above-identified application for patent (including prosecution and settlement of interferences), and any substitution, division, continuation-in-part, or continuation of such patent application and any application for reissue of any patent resulting from such patent application.
