REEL: 9387 FRAME: 0453

ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

WHEREAS, Patient Solutions, Inc. d/b/a Inivacare Infusion Systems, a Delaware corporation ("Assignor"), is the owner of the United States patents and patent applications attached to the Purchase Agreement (defined below) as Schedule 3.14 (the "Patents and Patent Applications").

WHEREAS, ALARIS Medical Systems, Inc. ("Assignee"), a Delaware corporation, having its principal place of business at 10221 Wateridge Circle, Building A, San Diego, CA 92121, is desirous of acquiring the entire and exclusive right, title and interest in and to the said inventions in the United States and throughout the world, and in and to any Letters Patent which may be granted and issued therefor;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and pursuant to an Agreement to Purchase Selected Assets between Assignor and Assignee dated May __, 1998 (the "Purchase Agreement"), the parties hereto hereby agree as follows:

1. Assignment. Assignor hereby assigns, transfers and conveys to Assignee all of Assignor's right, title, and interest throughout the world in and to said Patents and Patent Applications, the underlying inventions described therein, and any and all Letters Patent whether U.S. or foreign that are or may be granted therefrom including without limitation any extensions, continuations, continuations-in-part, divisions, reissues and renewals thereof, or other equivalents thereof (collectively, the "Assigned Patents and Patent Applications"), and further, all rights and privileges pertaining to the Assigned Patents and Patent Applications including without limitation the right, if any, to sue or bring other actions for past, present and future infringement thereof.

2. Further Assignment. Assignor further assigns to and empowers Assignee, its successors, assigns or nominees, all rights to make applications for patents or other forms of protection for said inventions and to prosecute such applications and said Patent Applications, as well as to claim and receive the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and the right to invoke and claim such right of priority without further written or oral authorization.

3. Authorization of Patent and Trademark Office to Record. Assignor further agrees that this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose regarding the subject matter hereof, as well as constituting proof of the right of Assignee or its successors, assigns or nominees to apply for patent or other proper protection for said inventions, and to claim the aforesaid benefits of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

4. Further Assurances. Assignor agrees to take such further action and to execute such documents as Assignee may reasonably request to effect or confirm the conveyance to Assignee of the Patents and Patent Applications and any improvements thereunder.

ASSIGNMENT

JUN 17 1991

WHEREAS, I, David L. Davis, a United States citizen, residing at 9351 Black Hills Way, San Diego, California 92129, have invented certain new and useful improvements in a INFUSION DEVICE WITH DISPOSABLE ELEMENTS for which I have executed an application for Letters Patent in the United States, Serial No. 194,865, filed October 25, 1988;

AND WHEREAS, Patient Solutions, Inc., a Delaware Corporation, with its principal place of business at 13220 Evening Creek Drive South, San Diego, California 92128, desires to acquire the entire right, title, and interest in and to the said improvements and the said Application:

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) to me in hand paid, and other good and valuable consideration, the receipt of which is hereby acknowledged, I, the said inventor, do hereby acknowledge that I have sold, assigned, transferred and set over, and by these presents do hereby sell, assign, transfer and set over, unto the said Patient Solutions, Inc., its successors, legal representatives and assigns, the entire right, title, and interest throughout the world in, to and under the said improvements, and the said application and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon and all reissues and extensions thereof, and all rights of priority under International Conventions and applications for Letters Patent which may hereafter be filed for said improvements in any country or countries foreign to the United States, and all Letters Patent which may be granted for said improvements in any country or countries foreign to the United States and all extensions, renewals and reissues thereof; and I hereby authorize and request the Commissioner of Patents of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents on applications as aforesaid, to issue all Letters Patent for said improvements to the said Patient Solutions, Inc., its successors, legal representatives and assigns, in accordance with the terms of this instrument.

AND I HEREBY covenant and agree that I will communicate to the said Patient Solutions, Inc., its successors, legal representatives and assigns, any facts known to me respecting said improvements, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths and generally do everything possible to aid the said Patient Solutions, Inc., its successors, legal representatives and assigns, to obtain and enforce proper patent protection for said improvements in all countries.

IN TESTIMONY WHEREOF, I hereunto set my hand and seal this 11 day of June 1991.
