The Assignee, PowerQuest Corporation, a corporation of the State of Utah, having a principal place of business at 1359 N. Research Way, Building K, Orem, Utah, 84097, desires more clearly to secure the entire right, title and interest in the invention. In consideration of \$1.00 and other good and valuable consideration paid to us by the Assignee, the receipt and sufficiency of which we hereby acknowledge, and with no reliance on any promise or representation made to us by or on behalf of the Assignee, WE HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in the invention (including subject matter disclosed but not claimed), all copyright and trade secret rights in embodiments or designs for the invention or any portion thereof, all rights in the above-identified United States and international patent applications and in all divisions, continuations and continuations-in-part of the applications, or reissues or extensions of Letters Patent or Patents granted thereon, including all applications specifically identified by number herein and all applications for which any present application claims a benefit or is claimed for benefit under 35 U.S.C. § 119 or § 120 or § 365, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

We hereby authorize the Assignee to file patent or copyright applications on the invention in any country in its own name or otherwise as the Assignee sees fit. We hereby authorize and request the United States Commissioner of Patents and Trademarks, and other intellectual property officials in this and foreign countries as are duly authorized by their laws to issue patents or copyright registrations, to issue any and all patents and registrations on the invention to

This Assignment & Agreement is effective as of the earliest patent application filing date noted above. It is not intended to supersede, supplant, rescind, or waive any right, title or interest conveyed to Assignee by us, under any prior conveyance, agreement, or operation of law, including without restriction rights created or conveyed by virtue of our employment by the Assignee. It is not conditioned or based on any future act to be performed by the Assignee.

This Assignment & Agreement may be executed in duplicate counterparts, each of which shall be deemed an original, all of which together are one and the same instrument. We warrant that to the best of our knowledge each of our contributions to the invention does not and will not infringe anyone's rights. This Assignment & Agreement is governed by the laws of the United States and the State of Utah, and any dispute arising from it will be heard in Utah. Even if part of this Assignment & Agreement is found unenforceable, the remaining parts are enforceable. A failure to exercise rights under this Assignment & Agreement does not mean those rights are waived. This Assignment & Agreement shall be binding upon our heirs and legal representatives.
