ASSIGNMENT
(Joint Inventors)

I, one of the persons identified below as an "Inventor," have made solely or jointly with others a certain new and useful invention (the "Invention"), as set forth in an application for United States Letters Patent, bearing substantially the following title and bearing the following serial numbers. The application was executed by me, and it was filed on the indicated dates:

Title: SYSTEM TO DETECT PROTEIN-RNA INTERACTIONS

Patent Application Serial No.	Filing Date	Issued as US Patent No.
08/409,561	03/23/95	5,610,015
08/677,153	07/09/96	5,677,131
08/747,183	11/12/96	5,750,667

The assignee under this agreement is hereby authorized to insert other filing dates and serial numbers corresponding to any other applications covering all or part of the invention, when ascertained.

For good and valuable consideration, I do hereby sell, assign, and transfer to The Research Foundation of State University of New York, a non-stock, non-profit New York Foundation and to its legal representatives, successors, and assigns, my entire right, title and interest in and to the Invention and to all United States and foreign patent applications any of whose claims cover all or part of the Invention, together with all patents resulting from such applications. The Research Foundation of State University of New York shall hold such right, title, and interest as fully and completely as they would have been held by me had this assignment and sale not been made.

I agree, upon The Research Foundation of State University of New York's request, to execute or assent to such United States and foreign patent applications and to execute all separate assignments and other legal documents that The Research Foundation of State University of New York may find necessary or desirable in its exercise of the right, title, and interest
