PATENT AND PATENT APPLICATION ASSIGNMENT

THIS ASSIGNMENT is made on the date set opposite the signature herein below, but is made *nunc pro tunc* as of April 2, 1998. The assignment made by this instrument is from Hyundai Electronics America, a California corporation having a correspondence address of 3101 N. First Street, San Jose, California, 95134 (hereinafter, "Assignor"), to Oak Technology, Inc., a Delaware corporation having a correspondence address of 139 Kifer Court, Sunnyvale, California, 94086 (hereinafter, "Assignee").

THIS ASSIGNMENT corrects and replaces a previous assignment recorded at reel 9306 and frame 0851 in the U.S. Patent and Trademark Office (the "Previous Assignment"), which incorrectly identifies Assignee as a California corporation. This Assignment correctly identifies Assignee as a Delaware corporation. Assignor hereby confirms title in Assignee (as identified herein) of all properties conveyed in the Previous Assignment.

WHEREAS, Assignor owns solely or jointly with Odeum Microsystems, Inc. (a California corporation having a correspondence address of 3101 N. First Street, San Jose, California, 95134), by assignment the entire right, title and interest in and to the patent applications set forth in Exhibit A (hereinafter the "Patent Applications") and the issued patents set forth in Exhibit B (hereinafter, the "Issued Patents"); and

WHEREAS, Assignor and Assignee wish for Assignee to acquire the entire right, title and interest in and to the Patent Applications and the Issued Patents.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN:

BE IT KNOWN that for and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration paid to Assignor, the receipt of which is hereby acknowledged, Assignor does hereby sell, assign and transfer to Assignee, and its successors and assigns, without any restrictions, reservations or limitations:

ITS ENTIRE RIGHT, TITLE AND INTEREST in and to (1) the Patent Applications, all patents and registrations which may be granted therefor (hereinafter, the "Future Patents"), the Issued Patents, all inventions described in the Patent Applications and Issued Patents with the right to file patent applications thereon and have patents or registrations granted thereon (hereinafter, the "Potential Patents"), and all divisions, renewals, continuations in whole or in part, substitutions, conversions, reissues, reexaminations, prolongations and extensions of the Patent Applications, Future Patents, Potential Patents and/or Issued Patents (the subject matter of this section (1) referred to collectively hereinafter as the "Patent Properties"), (2) all priority rights derived from the Patent Properties by virtue of the Paris Convention for the Protection of Industrial Property or by virtue of any other bilateral or multilateral agreement providing priority rights, (3) all rights to enforce the Patent Properties including the right to sue and recover accrued profits and/or damages for any and all infringements thereof including, but not limited to, past infringements, and (4) the good will of the business with which the Patent Properties are associated. The right, title and interest conveyed herein is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this sale, assignment and transfer not been made.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (1) cooperate with Assignee in the prosecution of the Patent Properties, (2) execute, verify, acknowledge and deliver all such further papers as may be necessary to properly evidence and record this sale, assignment and transfer of the Patent Properties, and (3) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent Properties in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.

IN TESTIMONY WHEREOF, Assignor has caused this Assignment to be signed by a duly authorized officer on this 2 day of Nov, 1998. The undersigned officer of Assignor represents that he has authority to execute this Assignment on behalf of Assignor, and to carry out all obligations imposed hereunder. The undersigned has read, understands and agrees to the terms of this Assignment.
