ASSIGNMENT

WHEREAS, Petroleum Geo-Services AS, a corporation having the mailing address Strandveien 4, P.O. Box 292, N-1324 Lysaker, Norway, (hereinafter Assignor) is the owner of the following listed United States Patents and Applications for United States Patent, and of the following listed applications for foreign patents filed under the provisions of the Patent Cooperation Treaty; and

WHEREAS, Roar Ramde (hereinafter Assignee), an individual residing at Asgardstrandsveien 617, Asgardstrand, N-3155, Norway, desires to acquire Assignor's entire right, title, and interest in and to such following listed United States Patents and Applications for United States Patent, and in and to such following listed applications for foreign patents filed under the provisions of the Patent Cooperation Treaty, and in and to any United States or foreign Letters Patent that may hereinafter issue on such patent applications; and in and to the inventions which are the subject of such patents and patent applications;

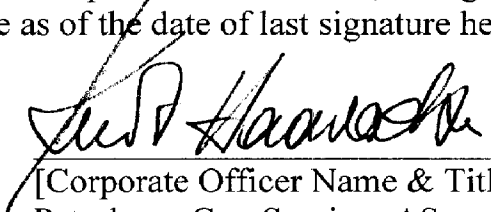

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns, sells, and transfers to Assignee all right, title, and interest in and to the following listed United States Patents and Applications for United States Patent, and to the following listed applications for foreign patents filed under the provisions of the Patent Cooperation Treaty, and to any United States or foreign patents that may issue on such patent applications, and to all divisions, reissues, continuations, continuations-in-part and extensions thereof; together with the right to sue for past, present, and future infringement.

Assignor also authorizes and requests the Commissioner of Patents for the United States Patent and Trademark Office, and the official patent offices of each country in which a patent application has been or shall hereinafter be filed, to issue all patents for said inventions, or patents resulting therefrom, insofar as Assignor's interest is concerned, to Assignee.

Assignor also assigns and transfers to Assignee all right, title, and interest in and to the invention disclosed in said patents and patent applications throughout the world, including the right to file applications and obtain patents, utility models, industrial models, and designs for said inventions in Assignee's own name throughout the world, including all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and Assignor further agrees to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title, and interest in Assignee.

This Assignment shall be binding on the parties' successors, assigns and legal representatives. This Assignment shall be effective as of the date of last signature hereto.
