its successors, assigns or nominees, hereinafter referred to as "Assignee", our entire
right, title and interest in and to said United States Patent Application, and the invention
shown and described therein;

and in and to all applications for patent and patents relating to said invention and
United States Patent, in all countries of the world, including all divisions, reissues,
continuations, substitutions and extensions thereof and all rights arising under or
pursuant to any and all international agreements, treaties or laws relating to the
protection of industrial property, including rights of priority, resulting from the filing of
any of said Applications; and I/we authorize and request any official whose duty it is to
issue Patents, to issue any patent on said invention described in said U.S. Patent to
said Assignee, and I/we agree that on request and without further consideration, but
at the expense of said Assignee, I/we will communicate to said Assignee or its

representative all facts known to me respecting said invention in said U.S. Patent, to testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, reissue, or other Applications, make all rightful oaths and declarations, and generally do everything possible to aid said Assignee to obtain and enforce proper Patent protection for said invention in said U.S. Patent in all countries.
