ASSIGNMENT

WHEREAS, the undersigned, Myron D. Tupper and Bill Gallentine,
 (hereinafter termed "Inventor"), a resident of Boring, Oregon and Hood River, Oregon, respectively,
 has invented certain new and useful improvements in A Compact, Resistance Regulated, Multiple Output
Hydraulic Package,
 and has executed concurrently herewith an application for a United States patent disclosing and identifying the
 invention; and

WHEREAS, Latch-Tool Development Co. LLC (hereinafter termed "Assignee") a corporation of the State of
 Colorado having a place of business at Colorado Springs, State of Colorado, is desirous of acquiring the entire right,
 title and interest in and to said application and the invention disclosed therein, and in and to all embodiments of the
 invention, heretofore conceived, made or discovered by said Inventor (all collectively hereinafter termed "said
 invention"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed
 "patents") thereon granted in the United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventor to have
 been received in full from said Assignee:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignee, the entire right, title and
 interest (a) in and to said application and said invention; (b) in and to all rights to apply for foreign patents on said
 invention pursuant to the International Convention for the protection of Industrial Property or otherwise; (c) in and to
 any and all applications filed and any and all patents granted on said invention in the United States or any foreign
 country, including each and every application filed and each and every patent granted on any application which is a
 division, substitution, or continuation of any of said applications; and (d) in and to each and every reissue or extension
 or any of said patents.

2. Said Inventor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy
 to the fullest extent the right, title and interest herein conveyed in the United States and foreign countries. Such
 cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving of testimony,
 execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed
 necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed;
 (b) for prosecuting any of said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional
 applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e)
 for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said
 invention and any applications therefor and any patents granted thereon, including without limitation opposition
 proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions;
 provided however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said
 Assignee.

3. The terms, covenants and conditions of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, his heirs, legal representatives and assigns.

4. Said Inventor hereby warrants and represents that he has not entered and will not enter into any assignment, contract or understanding in conflict herewith.

IN WITNESS WHEREOF, the said inventor has executed and delivered this instrument to said Assignee
