ASSIGNMENT

This Assignment is made as of the date written below, by ROMAN THAKER, an individual residing in New York, New York ("Assignor"), to PROGRESSIVE ELECTRONIC RECYCLING LABS, INC., a New Jersey corporation ("Assignee").

This Assignment is made with reference to the following facts:

A. Assignor is the owner of U.S. Patent No. 5,217,171 which issued on June 8, 1993 for a certain invention titled METHOD FOR PROCESSING SCRAP OF ELECTRONIC INSTRUMENTS ("Patent"), having received same by assignment nunc pro tunc from F&T TECHNOLOGY CORPORATION.

B. Assignor desires to transfer and convey to Assignee, and Assignee desires to receive and acquire from Assignor, the entirety of Assignor's right, title, and interest in and to the Patent and the invention shown and described therein.

NOW THEREFORE, for and in consideration of the sum of five dollars (\$5.00) cash in hand paid by Assignee to Assignor, and for other good and valuable consideration, the receipt and sufficiency of all of which consideration is hereby acknowledged by Assignor, Assignor does hereby and herewith assign, transfer, sell, and convey to Assignee, all of Assignor's right, title, and interest in and to the Patent and to the invention shown and described therein, together with any and all reissues thereof, all to have and to hold for the sole and exclusive use and benefit of Assignee, its successors and assigns, to the full end of the term for which the Patent is or may be granted or reissued, and any and all extensions thereof, all as fully and entirely as same would have been held and enjoyed by Assignor if this assignment had not been made, together with all claims for damages and profits by reason of past infringement of the Patent, with the right to sue for and collect same for Assignee's own use (and for the use of Assignee's successors and assigns).

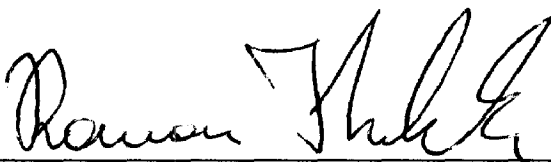

Assignor covenants and agrees that he will at any time on request execute and deliver to Assignee any and all documents and papers as may be necessary or desireable to perfect in Assignee the interests herein conveyed, and further covenants and agrees that

he will communicate and cooperate with Assignee to the extent necessary for Assignee to have and enjoy to the fullest extent the interests herein conveyed.

As of the date that this Assignment document is being physically signed, the Patent appears to be in an expired status at the Patent Office due to unintentional nonpayment of the first maintenance fee. Assignor and Assignee understand that, as of the date that this Assignment document is being physically signed, a petition to reinstate the Patent is pending before the Patent Office, which petition is well-founded in law and fact and therefore is reasonably likely of being granted, and with which petition both Assignor and Assignee are in complete agreement. Notwithstanding the occurrence or existence of any such expired status, both Assignor and Assignee fully intend for this present Assignment to be of the same force and effect as if the Patent never had expired and instead at all times were in full force and effect, and further fully intend that whatever expired status exist or may be deemed to exist, this present Assignment is meant to convey all of Assignor's right, title and interest in and to the Patent and all related rights as above noted, without any hindrance or encumbrance being deemed to exist by virtue of any such expired status.

IN WITNESS WHEREOF, said Assignor has hereunto set his hand and seal on this 24 day of March, 1999:

02:26 pm
