## ASSIGNMENT

WHEREAS, I, Michael Archer, 2605 North Three Springs Drive, Westlake Village, CA 91361 invented a new and useful circuit with active crest factor correction for operating gas discharge lamps which is the subject of U.S. Patent Application Serial No. 08/838,332 filed April 4, 1997 for which I executed patent application papers, and

WHEREAS, I believe myself to be the original, first and sole inventor of the invention set forth in said application for patent and represent that I have not conveyed or hypothecated any right or interest therein, and

WHEREAS, EOS Corporation, (sometimes hereinafter referred to as "said assignee"), a California corporation having its principal place of business at 906 Via Alondra, Camarillo, CA 93012 is entitled by written agreement to assignment of all rights, title and interest in and to said invention, any and all patent applications which may be filed thereon, and any and all patents which may be granted or issued therefor in the United States and throughout the world, including any and all divisions, continuations, continuations-in-part, reissues and extensions of any of the foregoing:

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, I do hereby formally assign, transfer and set over unto the said assignee, its successors and assigns, all of my right, title and interest in and to said invention, applications and patents which may be granted or issued for said invention in the United States and throughout the world, including all divisions, continuations, continuations-in-part, reissues and extensions thereof, and all international priority rights associated therewith, all to be held and enjoyed as fully and completely as the

same might have been held by me had this Assignment not been made, and I hereby authorize and request the United States Commissioner of Patents and Trademarks and the duly constituted authorities of foreign countries to issue all patents relating to the foregoing assigned rights jointly to me and said assignee, his successors and assigns.

I agree that I will promptly, upon request and without further compensation, but at no out-of-pocket cost or expense to myself do all lawful acts including the execution of all necessary documents, and the giving of testimony that in the opinion of the said assignee, its successors and assigns may be necessary or desirable for obtaining, sustaining, reissuing and renewing United States and foreign patents for said invention, and for perfecting, affirming, recording, and maintaining the title of said assignee, its successors and assigns thereto, and that I will generally cooperate with said assignee to the fullest extent in all matters pertaining to said invention and patents, and said assignee's title thereto.

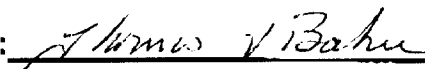

IN WITNESS WHEREOF, I have executed this instrument at CAMAR, 110,

California this 4<sup>th</sup> day of December, 1998.
