This Assignment made on July 5th, 1998, by FRANK W. BURCHAM, JR. of Lancaster, California, JOHN J. BURKEN of Tehachapi, California and JEANETTE LE of Lancaster, California (Assignors) to NATIONAL AERONAUTICS AND SPACE ADMINISTRATION ("NASA") (Assignee), having a place of operation at the Dryden Research Center, Edwards, California.

WHEREAS, Assignors have invented a new and useful invention(s) entitled EMERGENCY FLIGHT CONTROL SYSTEM USING ONE ENGINE AND FUEL TRANSFER (Invention(s)), for which a United States Utility Patent application will be filed, further identified by their attorneys', Cislo & Thomas LLP's docket number D-6822 (Patent Application);

WHEREAS, Assignors believe themselves to be original, first and joint inventors of the Invention(s) disclosed and claimed in said Patent Application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to said Invention(s), and said Patent Application in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, the entire right, title, and interest in and to said Invention(s), and said Patent Application for said Invention(s) in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under

international conventions, treaties, or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing said Patent Application in the United States and throughout the world for said Invention(s), and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said Invention(s), said Patent Application filed, and any patents granted for said Invention(s) in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said Invention(s), whether on an application for said Invention(s), said Patent Application, or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to
