## ASSIGNMENT

I, Jason A. Thompson, a citizen of the United States, residing at 313 Eldon Avenue, Drexel Hill, Pennsylvania, 19026, U.S.A. ("Assignor"), hereby declare that I am the inventor relating to a **BACKBOARD IMMOBILIZATION DEVICE** described in United States Patent Number 5,803,087, issued on September 8, 1998 (the "Patent").

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I hereby sell, assign, and transfer to Jake Systems, LLC, a Delaware corporation with the following mailing address: c/o PHS Corporate Services, 1201 Market Street, Suite 1600, Wilmington, DE 19801 ("Assignee"), its successors, and assigns, my entire right, title, and interest for all countries in and to the Patent and the invention disclosed therein, and all reissues, reexaminations, and extensions thereof, all said rights to be held and enjoyed by the Assignee for its own use and for the use of its successors, assigns, or other legal representatives, to the full end of the term for which the Patent has been or will be granted, reexamined, extended or reissued, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made, and Assignor hereby assigns any and all claims and causes for action for infringement of such Patent which have accrued up to and including the date of this Assignment, including all rights to recover damages and injunctive relief in respect to such infringement.

I agree that, when requested, I will, without charge to said corporation but at its expense, sign all papers, take all rightful oaths, make all rightful declarations, and do all acts which may be necessary, desirable, or convenient for securing and maintaining patents or other forms of protection for said invention in any and all countries and for vesting title thereto in said corporation, its successors, assigns, or nominees.

I agree that I will communicate to said corporation or its representatives any facts known to me respecting said invention and, when requested by said corporation and at its expense, will generally do everything possible to aid said corporation, its successors, assigns, and legal representatives or nominees, to obtain or enforce proper protection for said inventions in any and all countries.

I authorize and empower said corporation, its successors, assigns, or nominees, to make application for patent or other form of protection for said inventions in its or their own name, or in my name, in any and all countries and to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority without further written or oral authorization from me.

I hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file, or like document which may be required in any country for any purpose and, more particularly, in proof of the right of said corporation or its successors, assigns, or nominees to apply for patent or other proper protection for said inventions.
