PATENT ASSIGNMENT

In consideration of One Dollar (\$1.00) and other good and valuable consideration, receipt of which is hereby acknowledged, Cadillac Gage Textron Inc., a Michigan corporation ("Assignor"), does hereby assign to General Dynamics Land Systems Inc., a Delaware corporation ("Assignee"), all of its right, title, and interest in, to and under all inventions disclosed in the patents listed on Exhibit 1 attached hereto, and all of the goodwill pertaining thereto. The assigned rights include all rights to the patents and any continuations, divisions, reissues and extensions thereof, all rights to any priorities, and all rights to any Letters Patents of any country that may be granted for the inventions, including the right to sue for past infringement. These assigned rights are to be held and enjoyed by Assignee and its successors and assigns as fully and completely as the same would have been held by Assignor had the sale and assignment not been made.

Assignor hereby covenants that it will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein.

Assignor further agrees to execute and deliver to Assignee such further instruments of transfer and assignment as Assignee may from time to time reasonably request in order to transfer and assign to and vest in Assignee all of the rights, privileges and property hereby transferred and assigned or intended so to be.

Executed as of July 6, 1999.
