**ASSIGNMENT**

**Whereas, We, Jerome T. Pereira and Robert E. Woodworth, residing at 789 Hickory Way, San Jose, California 95129 and 1085 Firth Court, Sunnyvale, California 94087, respectively; (hereinafter referred to individually and collectively as "Inventor") have invented certain new and useful improvements in *Compact Dual Pump* and have executed an application for a United States patent disclosing and identifying the invention on the *June 1999*; and having Serial No. *To be assigned*; U.S. Mail, Express Mail No.: *EL173824575US* and filing date of *To be assigned*; mailed August 6, 1999; and**

**Whereas, Microbar Systems, Inc. (hereinafter "Assignee"), a corporation having a principal place of business at 1252 Orleans Drive, Sunnyvale, California 94089-1137, is desirous of acquiring the entire right, title, and interest in and to said invention, said application, and the letters patent to be obtained therefor:**

**Now, therefore, for and in consideration of One Dollar and other good and valuable considerations, Inventor assign to the Assignee and the Assignee's legal representatives, successors and assigns, the entire right, title, and interest in and to said invention, said application, and the letters patent, both foreign and domestic, that may or shall issue thereon; and Inventor does hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to the above-mentioned Assignee agreeably with the terms of this assignment.**

**Inventor hereby authorizes the above-mentioned Assignee or its legal representative to insert in this instrument the filing date and serial number of said application or any other information that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.**

Upon said consideration, **Inventor** conveys to Assignee the right to make application in its own behalf for protection of said invention in countries foreign to the United States and where expedient to claim under the International Convention or other international arrangement for any such application the date of the United States application (or other application if any there be) in priority to other applications; and **Inventor does hereby covenant and agree with Assignee** that Inventor will not execute any writing or do any act whatsoever conflicting with these presents, and that Inventor will at any time upon request, without further or additional consideration, but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, renewal, reissued, or extended Letters Patent of the United States or of any and all foreign countries on said invention, and in enforcing any rights or chose in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of the assigns and legal representatives of both parties.

IN WITNESS WHEREOF, the said Inventor have executed and delivered this instrument to said Assignee:
