ASSIGNMENT

This ASSIGNMENT, dated effective March 18, 1999, is entered into by and between LifeQuest Medical, Inc., a Delaware corporation ("Purchaser"), and Dexterity Incorporated, a Delaware corporation ("Seller"). Capitalized terms used in this Assignment will have the meanings set forth in the Merger Agreement (as hereinafter defined).

WITNESSETH:

WHEREAS Purchaser and Seller have entered into a Plan of Merger and Acquisition Agreement (the "Merger Agreement") dated effective December 18, 1998, pursuant to which Purchaser has assumed all right, title and interest in and to Seller's existing rights in certain Intellectual Property as set forth in that Merger Agreement; and

WHEREAS Seller desires to fully enable said assumption by Purchaser by executing this assignment document ("Assignment");

NOW, therefore, for this and other good and valuable consideration, the receipt and sufficiency of which is acknowledged by both parties, the parties agree as follows:

1. ASSIGNMENT

1.1. Seller hereby assigns, transfers, grants, assigns, and relinquishes exclusively to Purchaser, in perpetuity, all of Seller's right, title, and interest in and to Intellectual Property, whether tangible or intangible, and specifically including (without limitation) the following:

- (a) all of Seller's patents and applications therefor, further including, but not limited to, all divisions, reissues, substitutions, reexaminations, continuations, continuations-in-part and extensions thereof; and

(b) all of Seller's inventions, whether or not patentable, further including, but not limited to, all new developments and inventions, as well as all improvements on prior inventions regardless of prior inventorship; and

(c) all of Seller's know-how and work product, regardless of form and whether tangible or intangible, further including, but not limited to, invention and laboratory notebooks, source code and object code, system design, system specifications, flow charts, test data, records and journals; blueprints, drawings and photographs; research and engineering reports, including any models or other hardware; licensing, marketing or development analysis; and customer or prospective customer lists; and

(d) all of Seller's copyright interests regardless of actual or potential registrability, and including moral rights, rights of publication and rights of attribution and integrity; and

(e) all of Seller's trademark or service mark interests, together with all of the goodwill of the business associated therewith and represented thereby; and

(f) all of Seller's trade secrets; and

(g) all of Seller's other intellectual property and other proprietary interests, whether or not identifiable as of the date of execution hereof, relating to, or used in connection with, the Assets or the operation of the business of Seller now or at any time in the future.

1.2 Seller hereby assigns, transfers, and conveys to Purchaser its rights, interests, entitlements and obligations in and to all Contracts.

2. FURTHER ASSURANCES

Seller shall execute and deliver such further conveyance instruments and take such further actions as Purchaser may deem necessary or desirable to implement any of the foregoing assignment provisions, or any related provision in the Agreement.

3. ACKNOWLEDGMENT OF RIGHTS

In furtherance of this Assignment, Seller hereby acknowledges that, from and after the effective date of this Assignment, Purchaser has acceded to all of Seller's right, title, and standing to:

(a) Receive all rights and benefits pertaining to Intellectual Property and to the Contracts.

(b) Institute and prosecute all suits and proceedings and take all actions that Purchaser, in its sole discretion, may deem necessary or proper to collect, assert, or enforce any claim of any kind relating to any right, title or interest assigned hereunder.

(c) Defend and compromise any and all such action, suits, or proceedings relating to any right, title, interest assigned hereunder, and perform all other such acts in relation thereto as Purchaser, in its sole discretion, deems advisable.

(d) Register, maintain, renew or otherwise apply for new or continuing statutory protection for Intellectual Property, including (without limitation) patent, copyright and trademark protection.

4. WAIVER

Seller hereby waives any and all rights which Seller may have to any utilization of the Intellectual Property by Purchaser, including but not limited to, all moral rights or rights of attribution and integrity which Seller may have to the reproduction of any of the Intellectual Property, to the preparation of any derivative work based upon one or more of the Intellectual Property, to the distribution of copies of any of the Intellectual Property to the public, to the public display of any of the Intellectual Property, and to any advertising copy of any of the Intellectual Property which may be utilized. Seller hereby waives any right of publicity which Seller may have, or which may arise, as a result of or in conjunction with Purchaser's utilization of the Intellectual Property.
