GRANT OF SECURITY INTEREST (PATENTS)

Image Technologies Corporation, a Delaware corporation (the "Borrower"), is obligated to NMT Medical, Inc., a Delaware corporation, as Lender (the "Secured Party"). Pinotage, L.L.C., an Arkansas limited liability company located at 19308 Pinecrest, Rogers, Arkansas 75276 ("Pinotage"), and Robert Lee Thompson ("Thompson" and, together with Pinotage, the "Guarantors"), have guaranteed certain obligations of the Borrower and have entered into an Amended and Restated Security Agreement dated the date hereof (the "Security Agreement") (collectively, the "Collateral") in favor of the Secured Party pursuant to the terms of the Amended and Restated Guarantee of even date herewith (the "Guarantee") of the Guarantors in favor of the Secured Party.

Pursuant to the Security Agreement, Pinotage and Thompson (to the extent of his right, title and interest) granted to the Secured Party a security interest in all Intellectual Property (as defined in the Security Agreement) (collectively, the "Collateral"), including, without limitation, all right, title and interest of Pinotage and Thompson (to the extent of his right, title and interest) in and to the patents and patent applications listed on Schedule 1 attached hereto, which patents and patent applications are registered or filed in the United States Patent and Trademark Office (collectively, the "Patents"), to secure the prompt payment and performance of the Secured Obligations (as defined in the Security Agreement).

Guarantors' rights in the Patents listed in Schedule 1 are limited only to medical uses, and the security interest granted to the Secured Party is also limited only to medical uses.

For good and valuable consideration, the receipt of which is hereby acknowledged, and for the purpose of recording the grant of the security interest as aforesaid, the Guarantors do hereby further assign to the Secured Party, and grant to the Secured Party, subject to the provisions of the Security Agreement, a security interest in the Collateral, whether now owned or existing or hereafter arising or acquired, to secure the prompt payment, performance and observance of the Secured Obligations.

The Guarantors do hereby further acknowledge and affirm that the rights and remedies of the Secured Party with respect to the assignment of and security interest in the Collateral made and granted hereby are set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein.

The Secured Party agrees that the grant of the security interest is taken subject to the right of Guarantors to license the Patents for the non-medical market. Any such license shall survive a default or bankruptcy by the Borrower or Guarantors and in the event of the Secured Party's enforcement of rights against the Secured Obligations, such license shall remain in full force and effect.

Upon the indefeasible cash payment in full of all Secured Obligations or otherwise the satisfaction of the conditions set forth in the Guarantee, the Secured Party will take whatever
