its successors and assigns, the entire undivided right, title and interest for the United States of America and all other countries in and to the invention(s) described in United States Patent Application Ser. No. 29/112,285 filed on October 13, 1999 (**Docket No. 8061**) entitled **Design For A Razor Handle**, this assignment including each and all said applications and any continuation, division, substitute, national, international, or regional application in any country which is derived or claims priority therefrom, and any patents or design registrations granted in the United States and all other countries thereon, and authorize Assignee to file patent applications and design registrations on said invention(s) worldwide in its own name and to claim priority from each and all the aforementioned United States Patent Applications under any applicable treaty or convention.

Assignor hereby covenants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this assignment and sale. Assignor further covenants to provide Assignee, upon request, with all pertinent facts and documents relating to said invention(s), applications, patents and design registrations as may be known and accessible to Assignor and to promptly execute and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to file patent

applications or design registrations on said invention(s) worldwide, to obtain, maintain and enforce said applications, patents or design registrations, and to transfer legal ownership of said applications, patents or design registrations to Assignee.

Assignor authorizes a legal representative of the Assignee to insert the identifying application data in the blank space above after Assignor has executed this Assignment.
