**ASSIGNMENT OF PATENT APPLICATIONS
AND PATENT RIGHTS**

WHEREAS, Barrington A. Morris, residing in Coral Springs, Florida (referred to herein as "Assignor"), has participated in the development of certain new and useful improvements in a Method and Composition for Preservation of Marine Microorganisms ("Invention");

WHEREAS, a United States provisional patent application for said Invention ("Application") was filed on January 29, 199 and assigned serial # 60/117,959, and whereas a United States utility patent application has been filed or shall be filed with the United States Patent and Trademark Office for the Invention, said application being entitled Method and Composition for Preservation of Marine Microorganisms; and

WHEREAS, World Wide Imports Enterprises, Inc., having a principal place of business located at 5315 N.W. 10th Terrace, Ft. Lauderdale, Florida, 33309 (hereinafter "Assignee"), is desirous of acquiring the entire right, title and interest in and to said Invention and Applications, and in and to any utility and/or design patents that may be granted therefor in the United States and in any and all foreign countries;

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) to Assignor in hand paid, and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby sells, assigns and transfers, to said Assignee the full and exclusive right to the said Invention and Application in the United States and its territorial possessions and in all foreign countries and the entire right, title, and interest in and to any and all utility and/or design patents which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to all divisions, reissues, continuations and extensions thereof.

Inventor hereby authorizes and requests the United States Patent and Trademark Office in the United States and any and all foreign countries to issue any and all of said design and utility patents, when granted, to said Assignee as the assignee of the entire right, title, and interest in and to the same, for the sole use and enjoyment of said Assignee, its successors and assigns.

Further, Inventor agrees that he will communicate to said Assignee or its representatives, any facts known to him respecting said Invention, and testify in any legal proceedings, sign all lawful papers, execute all divisions, continuations, substitutions, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said utility and/or design patents to be issued to said Assignee, make all rightful oaths, and generally do everything necessary or desirable to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said Invention in the United States and in and all foreign countries.
