ASSIGNMENT

WHEREAS, we, Christine L. Peterson, 4308 Courtesy Lane, Batavia, County of Clermont, State of Ohio and William L. Brown, 4210 N. Haven Drive, Mason, County of Warren, State of Ohio, have invented an improvement in:

"Tear-Stop Score Encircling Single Opening Carrier Handles"

WHEREAS, we have executed a Utility Application for United States Patent based thereon, on the 7th day of Dec., 1999, (International Paper Company Docket No. IP-5922).

WHEREAS, International Paper Company, a corporation of the State of New York, is desirous of acquiring certain rights thereunder.

NOW THEREFORE, for valuable consideration, receipt of which is hereby acknowledged, we have agreed to and do hereby sell, assign, and transfer unto said corporation our entire right, title, and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto, in and to said invention, said application and any and all patents (including extensions thereof) of any country, which have been or may be granted on said invention or any part thereof, or on said application or any divisional, continuing, renewal, reissue, or other patent application, based in whole or in part thereon, and/or based upon said invention.

TO BE HELD AND ENJOYED by said corporation, its successors, and assigns, to the full ends of the respective terms for which said patents or any of them have been or may be granted, as fully and entirely as the same would have been held and enjoyed by us had no sale and assignment of said interest been made.

AND we hereby covenant and agree for ourselves, our heirs, and our legal representatives, to assist our said assignee in the prosecution of said application and in any interference which may arise involving said invention, and, upon request, to execute without further consideration all necessary and desirable divisional, continuing, renewal, reissue, or other application for patents in any country, that might be deemed necessary by said assignee fully to secure to said assignee its interest as aforesaid in and to said invention or any part thereof, and in and to said several patents or any of them.

AND we do hereby authorize and request the Commissioner of Patents and Trademarks of the United States of America to issue any and all United States Patents which may be granted upon said United States applications or any of them, or upon said invention or any part thereof, to said corporation.
