PATENT ASSIGNMENT

PATENT ASSIGNMENT ("Patent Assignment") dated as of ~~December 10~~ 10, 1999 from and by Sea-Land Service, Inc., a Delaware corporation ("Assignor"), in favor of Aktieselskabet Dampskibsselskabet Svendborg, a Danish corporation ("Svendborg") and Dampskibsselskabet AF 1912, Aktieselskab, a Danish corporation ("1912" and, together with Svendborg, "Assignees").

WITNESSETH:

WHEREAS, Svendborg, 1912, CSX Corporation, a Virginia corporation, and Assignor have executed and delivered an Amended and Restated Purchase Agreement, dated as of July 21, 1999 (as amended, supplemented or modified from time to time, the "Purchase Agreement"), which provides, among other things, for the sale by Assignor to Svendborg and 1912 of certain of the Acquired Assets; and

WHEREAS, Assignor is the owner of certain patent rights; and

WHEREAS, the Closing under the Purchase Agreement is occurring on the date hereof; capitalized terms not otherwise defined herein are used as defined in the Purchase Agreement;

NOW, THEREFORE, pursuant to the Purchase Agreement and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Assignment. Assignor hereby assigns free and clear of all Liens (other than Permitted Liens) to Assignees, their successors and assigns, to have and to hold the same for the use and enjoyment of Assignees and their successors and assigns, forever all of Assignor's right, title and interest in and to, or arising under, certain United States and foreign patents, and inventions disclosed therein, together with all Letters Patent or applications therefor, including without limitation those patents issued in the United States and certain foreign jurisdictions set forth on Exhibit 1 hereto, and all divisions, continuations, continuation-in-parts, renewals, reissues, reexaminations, or other patent applications based upon these patents and patent applications, and all rights to claim priority based on such applications, and all corresponding foreign counterpart patent applications filed and hereafter to be filed for these inventions, and foreign counterpart issued patents and all extensions, renewals, and reissues thereof (the "Patents"), along with the right to recover for damages and profits for past or future infringements thereof, the Patents to be held and enjoyed by Assignees for their own use and behalf and for the use and behalf of their successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment not been made.

2. Further Assurances. (a) Assignor, for itself and its successor and assigns hereby agrees with Assignees, their successors and assigns, that Assignor will do, execute and

deliver or will cause to be done, executed and delivered all such further acts, transfers, assignments and conveyances, powers of attorney, and assurances, and will take all such further action, in order to better assure, convey and confirm unto Assignees, their successors and assigns, all and each of the Patents hereby sold, conveyed, assigned and delivered and to establish and protect rights and remedies created or intended to be created in favor of Assignees under this Patent Assignment, in each case, as Assignees, their successors or assigns, will reasonably request.

(b) Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and each sovereign official holding a corresponding position of authority in any country within which Assignor has registrations or pending applications with respect to any Patent, to issue and to record the title of Assignees as owners of all right, title and interest in and to the Patents, it being agreed and understood by the parties hereto that Assignor has no obligation to record this Assignment or to obtain certificates of registration in Assignees' name, that being Assignees' responsibility.

3. Purchase Agreement. The execution and delivery of this Patent Assignment will not be (or be deemed) a waiver or discharge of any representation, warranty, covenant, or agreement of Assignor, Assignees or any other party to the Purchase Agreement in or under the Purchase Agreement, and such execution and delivery will not be deemed a modification or amendment of any provision of the Purchase Agreement in any respect.

4. Waivers and Amendments. This Patent Assignment may be amended, modified or supplemented, and any terms hereof may be waived, only by a written instrument executed by the parties hereto.

5. Counterparts. This Patent Assignment may be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall be considered one and the same agreement, and all signatures need not appear on any one counterpart.

6. Headings. Section headings contained in this Patent Assignment are for convenience of reference only and will not be deemed a part of or to affect the meaning or interpretation of this Patent Assignment or any term or provision hereof.

7. Successors and Assigns. This Patent Assignment will inure to the benefit of, and be binding upon, the parties hereto and their respective successors and assigns.

8. Governing Law. This Patent Assignment will be governed by and construed and enforced in accordance with the laws of the State of New York, without giving effect to any choice of law or conflict of law (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York, except that if it is necessary in any other jurisdiction to have the law of such other

jurisdiction govern this Patent Assignment in order for this Patent Assignment to be effective in any respect, then the laws of such other jurisdiction will govern this Patent Assignment to such extent.
