ASSIGNMENT

In consideration of my employee agreement with LITHIUM POWER TECHNOLOGIES, INC., and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, the below named inventor, residing in the city listed below my name, hereby assign, transfer, and deliver to LITHIUM POWER TECHNOLOGIES, INC., a Texas corporation having offices in Manvel, Texas, its successors and assigns (collectively referred to as "LITHIUM POWER"), all of my right, title and interest in and to all subject matter invented by me, disclosed in the application for United States patent Serial No. 09/449,443 entitled

ELECTROCHEMICAL CAPACITOR AND METHODS OF FABRICATING SAME

filed in the U.S. Patent and Trademark Office on November 25, 1999, and in and to all patents and all Convention and Treaty rights of all kinds, in all countries throughout the world, for all such subject matter. I agree to sign all documents necessary to secure all such patents and rights and request issuance of all such patents to LITHIUM POWER in accordance with this Assignment.

I confirm that I have not made any agreement in conflict with this Assignment. I further agree that I will provide information within my knowledge or belief, and do all other relevant things that LITHIUM POWER deems necessary or desirable and requests of me in connection with obtaining or maintaining, or in connection with any proceeding, controversy or litigation pertaining to, any such patents, or in order to perfect and/or enforce LITHIUM POWER's ownership of the right, title and interest conveyed by this Assignment, or in connection with this Assignment, without payment of consideration to me beyond that called for in my employee agreement with LITHIUM POWER, on the understanding, however, that LITHIUM POWER will bear all reasonable expenses actually incurred for or in connection with such matters. This Assignment and the obligations assumed by me shall be binding on my heirs and personal representatives.
