ASSIGNMENT OF PATENT RIGHTS

Whereas, I the undersigned, Anthony G. Macaluso, residing at 7101 Circa DeMedia, Escondido, CA 92029 am the sole inventor and owner of all, right, title and interest in U.S. Patent No. 5,427,381, issued June 27, 1995 for SPORTS NET; U.S. Patent No. 5,569,094, issued October 29, 1996 for GOLF NET; United states Patent No. 5,989,130, issued November 23, 1999 for MULTI-USE NET; and United States Patent Application No. 09/350,564 for Golf Practice Net filed July 9, 1999 and presently pending as of the date of execution of this document;

Whereas, I verily believe that I am the original and first inventor of the inventions set forth in said patents and said application and represent that I have not conveyed or hypothecated any right or interest therein; and

Whereas, The JUGS Company a corporation of the state of Oregon, sometimes hereinafter referred to as "said assignee", having a principal place of business at 11885 S.W. Herman Road, Tualatin, Oregon 97062, is desirous of acquiring the entire and exclusive right, title and interest in and to the inventions described and claimed in said patents and said application, any and all patent applications which may be filed thereon, and any and all Letters Patent which may be granted or issued therefor in the United States and throughout the world, including any and all divisions, continuations, reissues and extensions of any of the foregoing:

NOW, THEREFORE, in consideration of obligations voluntarily assumed by me and set forth in an agreement entered into between me and said assignee for the further consideration of the sum of One Dollar (\$1.00) paid to me, receipt of which is hereby acknowledged, I do hereby sell, assign, transfer and set over unto said assignee, its successors and assigns, the entire and exclusive right, title and interest in and to the inventions described and claimed in said patents and said application, any and all patent applications which may be filed thereon, and any and all Letters Patent which may be granted or issued therefor in the United States and throughout the world, including any and all international priority rights associated therewith, all to be held and enjoyed as fully and completely as the same might have been held by me had this assignment not been made; and I hereby authorize and request the Commissioner of Patents and Trademarks of the United States and duly constituted authorities of foreign countries to issue all Letters Patent relating to the foregoing assigned rights to said assignee, its successors and assigns.

I agree that I will at all times keep said assignee advised of my whereabouts; and I will promptly, upon request of said assignee, and without further compensation, but at no out-of-pocket expense to myself, do all lawful acts, including the execution of all necessary documents and the giving of testimony that, in the opinion of said assignee, its successors and assigns, may be necessary or desirable for obtaining, sustaining, or reissuing United States and foreign Letters Patent relating to the foregoing assigned rights, and for perfecting, affirming, recording, and maintaining the title of said assignee, its successors and assigns thereto; and that I will generally cooperate to the fullest extent in all matters pertaining to said invention and patents and said assignee's title thereto.

IN WITNESS WHEREOF, I have executed this instrument at Escondido, California on the date indicated adjacent my name.
