ASSIGNMENT

WHEREAS the Government of the United States of America entered into a contract Number F04611-96-C-0001 with Sparta, Inc., as Contractor, which contract provides that as to all discoveries, inventions or improvements made or first reduced to practice in the performance thereof and not covered or to be covered by applications for Letters Patent filed by the Contractor, the Government of the United States shall be entitled to an assignment of the Contractor's entire right, title, and interest therein; this assignment being subject to a Wavier of Intellectual Rights dated 1 November 1995.

WHEREAS Phillip G. Wapner was employed by the Contractor and during the course of their employment made an invention jointly with Wesley P. Hoffman and Steven Jones, employees of the United States Government, entitled CARBON AND CERAMIC MATRIX COMPOSITES FABRICATED BY A RAPID AND LOW-COST PROCESS INCORPORATING IN-SITU POLYMERIZATION OF WETTING MONOMERS, which invention forms a part of the aforesaid contract; and

WHEREAS the Contractor has signified its intention not to file an application for Letters Patent on the aforesaid invention;

NOW, THEREFORE, to all whom it may concern, be it known that for and in consideration of the premises and other valuable considerations, I, Phillip G. Wapner, joint inventor, and Sparta, Inc., the Contractor, by its duly authorized officer or agent, have sold, assigned, and transferred, and by these presents do sell, assign, and transfer unto the said Government of the United States, as represented by the Secretary of the Air Force, our undivided right, title and interest throughout the United States of America, its territories and dependencies, and all foreign countries, in and to the said invention entitled CARBON AND CERAMIC MATRIX COMPOSITES FABRICATED BY A RAPID AND LOW-COST PROCESS INCORPORATING IN-SITU POLYMERIZATION OF WETTING MONOMERS, described in the specification executed by Wesley P. Hoffman, on or about the 14 day of May of 1998, preparatory to obtaining Letters Patent of the United States therefor and all Letters Patent issuing there on and any continuations, divisions and reissues or extensions thereof; we do hereby authorize and request the Commissioner of Patents and Trademarks to issue the said Letters Patent to the Government of the United States of America, as represented by the Secretary of the Air Force and his/her successors, the assignee of the said undivided right, title and interest in and to the same for the sole use, except as aforesaid, for the full term or terms for which said Letters Patent and any continuations, divisions, and reissues or extensions thereof are or may be granted as fully and entirely except as aforesaid, as the same would have been held by Phillip G. Wapner, joint inventor, and Sparta, Inc. had this assignment not been made; and I, Phillip G. Wapner, joint inventor, hereby agree to execute any and all applications for Letters Patent, both domestic and foreign, and to furnish all data and documents and to execute any papers which may be necessary for the preparation or filing of such applications, except it shall be understood that I shall not be subject to any out of pocket expense relative to such action.
