ASSIGNMENT

This Assignment is made by Bob Mills of 8635 Richland Place, Sidney, BC, V8L 5E8 (hereinafter referred to as "Assignor"), to Osburn Manufacturing Inc., ("Assignee") having a place of business at 6670 Butler Crescent, Saanichton, British Columbia, CANADA, V8M 2G8.

WHEREAS, Assignor has invented a new and useful design/invention entitled **FIREPLACE INSERT** for which an application for a United States Design Patent will be filed substantially contemporaneously with the filing of this Assignment;

WHEREAS, Assignor believes himself to be the original, first and sole inventor of the design/invention to be disclosed and claimed in said application for Design Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said design/invention, and any patent, design patent, industrial design, petty patent or utility model that may be granted for said design/invention in the United States, and throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are

hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee, the entire right, title and interest in and to said design/invention, said application, and any patent, design patent, industrial design, petty patent and utility model that may be granted for said design/invention, in the United States, Canada and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any patent, design patent, industrial design, petty patent or utility model as may issue anywhere in the world for said design/invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said design/invention, and said application, and any patent, design patent, industrial design, petty patent or utility model granted for said design/invention and application in the United States or anywhere in the world.

Assignor represents and warrants that he has not granted and will not grant to any other any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents the United States and of all foreign countries to issue any patent, design patent, industrial design, petty patent or utility model granted for said design/invention, whether on said application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said design/invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date written hereinbelow.
