**PATENT APPLICATION ASSIGNMENT**

WHEREAS, ViaSpace Radio, Inc., a California corporation, hereinafter referred to as Assignor, warrants that it is the sole owner of the following United States Patent Application:

Pending U.S. Patent Application Serial Number 09/459,025, entitled "Internet-Based Interactive Radio System for Use with Broadcast Radio Stations," filed on December 10, 1999, by Crosby et al., where both inventors are obligated to assign said application to ViaSpace Radio, Inc., and have not yet done so.

WHEREAS, Wireless APS, Inc., a Delaware corporation, whose address is 2400 Lincoln Avenue, Altadena, CA 91001, hereinafter referred to as Assignee, desires to acquire by formal, recordable assignment, the entire worldwide right, title and interest in and to the Patent Application, including any foreign patent applications claiming priority based on the Patent Application, as its sole and separate property.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee the entire right, title and interest in and to the inventions and the above-referenced Patent Application, the same to be held and enjoyed by the Assignee to the full end of the terms of any patents worldwide issuing therefrom, as fully and entirely as the same would have been held and enjoyed by the assignor if this assignment and sale had not been made.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignee, Assignor and its legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing any patents that issue from the Patent Application, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, and the Patent Application.

Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue any future United States Letters Patents granted for the inventions, such as, but not limited to, those granted based upon a reissue application or reexamination, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention. Assignor also hereby authorizes Assignee to directly seek the execution of any necessary papers required for the prosecution and issuance of the Patent Application directly from the inventors of the Patent Application, including, if necessary, a separate assignment document.

IN WITNESS WHEREOF, Assignor has executed this Assignment.
