ASSIGNMENT

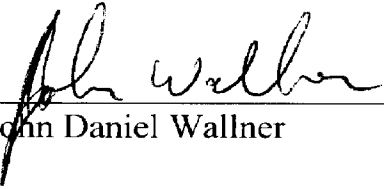

WHEREAS, we, John Daniel Wallner, Christopher Leo Hoogenboom, Michael Jon Nishimura and Michael Kenneth Wilson, United States citizens residing at the addresses specified below (collectively “the Inventors”), have invented a new and useful INPUT BUFFERING AND QUEUE STATUS-BASED OUTPUT CONTROL FOR A DIGITAL TRAFFIC SWITCH (“the Invention”) for which application for United States Letters Patent have been filed and been assigned serial number 09/052,404 ;

WHEREAS, Xylan Corporation (“the Company”), a California corporation having its principal place of business at 26679 W. Agoura Road, Calabasas, California is desirous of acquiring the exclusive right, title and interest in and to the Invention and in and to the Letters Patent to be granted and issued therefor in the United States and its territories and possessions and all countries foreign thereto; and

WHEREAS, we, the Inventors, for good and valuable consideration, the receipt of which is acknowledged, have covenanted to hold and trust and assign to the Company all right, title and interest in and to the Invention;

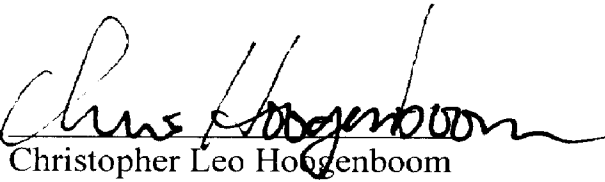

NOW, THEREFORE, we, the Inventors, do hereby sell, assign, transfer and set over unto the Company, its successors and assigns, the full and exclusive right, title and interest in and to the Invention, and in and to any and all Letters Patent to be granted and issued therefor, not only for, to and in the United States, its territories and possessions, but for, to and in any and all other countries, including all priority rights under

international conventions; and we hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to the Company, its successors and assigns, in accordance with this assignment.
