ASSIGNMENT AND AGREEMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Keith Martin Kaucher of Santa Monica, CA, ("Assignor") has sold, assigned, and transferred, and do hereby sell, assign, and transfer unto Ultra Wheel Co., a corporation of the state of California, having a place of business at 6300 Valley View Avenue, Buena Park, CA 90620, and its successors, assigns, and legal representatives, ("Assignee") the entire right, title, and interest for the United States of America, its territories and possessions, in and to certain inventions in Wheel, described, illustrated, and claimed in an application for United States Letters Patent executed by me on or about the same date as this Assignment, and identified as Docket No. D64 44819, together with the entire right, title, and interest in and to the application, and in and to United States Letters Patent that may be issued upon the application and upon any division, extension, continuation, continuation-in-part, reexamination, or reissue thereof.

I hereby also sell, assign, and transfer to Assignee the entire right, title, and interest for all countries foreign to the United States of America in and to the inventions, together with the entire right, title, and interest in and to applications for patents or counterparts of foreign countries, including all rights under any international conventions and treaties in respect of the inventions and the applications for patent or foreign counterparts in foreign countries, and in and to patents or counterparts of foreign countries that may be issued upon the applications and upon any division, extension, continuation, continuation-in-part, reexamination, or reissue thereof.

I hereby authorize Assignee to apply for patents or counterparts in foreign countries directly in its own name, and to claim the priority of the filing date of the application for United States Letters Patent under the provisions of any and all international conventions or treaties.

I agree that, when requested, without charge to Assignee but at its expense, I will do all lawful acts, including the execution of all papers, taking all rightful oaths, giving of testimony, that may be necessary, desirable, or convenient for securing, maintaining, reissuing, and enforcing patents or counterparts for the inventions in any and all countries, and for perfecting, recording, vesting, or maintaining title in the inventions and the applications, and any patent or counterparts granted for the invention, in Assignee, its successors, assigns, and legal representatives or nominees in any and all countries.

I represent and warrant that I have not granted and will not grant to others any rights inconsistent with the rights granted herein.

I hereby authorize and request the Commissioner of Patents and Trademarks of the United States to issue any Letters Patent upon the application, division, extension, continuation, continuation-in-part, reexamination, or reissue, to Assignee, its successors, assigns, and legal representatives, to the full end of the term for which Letters Patent may be granted, the same as they would have been held and enjoyed by me had this Assignment not been made, and I hereby authorize and request the equivalent authorities in foreign countries to issue the patents or counterparts of their respective countries to the Assignee.

I hereby covenant with Assignee, its successors, assigns, and legal representatives, that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license, or other encumbrance.

IN WITNESS WHEREOF, I have executed this Assignment and Agreement.
