ASSIGNMENT

WHEREAS, We, Dease Turner Hall of 409 42nd Ave., San Francisco, California, 94121 USA, and Olivia Jungius Murray of 1526 12th Ave., San Francisco, California, 94122 USA, hereafter referred to as "Applicants", have invented certain new and useful improvements for a *INFANT FEEDING PILLOW*, for which a design application for an United States Patent is filed herewith.

WHEREAS, Woobie World L.L.C., a limited liability company organized and existing under the laws of the State of Delaware, herein referred to as "Assignee", whose principal business address 409 42nd Ave., San Francisco, California, 94121 USA, is desirous of acquiring the entire right, title and interest in and to the invention throughout the world, and all right, title and interest in, to and under any and all Letters Patent of the United States and all other countries granted on the invention throughout the world.

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00), and for other good and valuable consideration, the receipt, sufficiency and adequacy of which are hereby acknowledged, we hereby sell, assign, transfer and set over to Assignee all right, title and interest in and to the invention throughout the world, and the application for patent in the United States and any foreign country, and any and all divisions, continuations, and reissues thereof, the right to claim priority to the United States application for any foreign application under the International convention, and any and all patents of the United States and foreign countries which may be granted therefor.

The same to be held and enjoyed by Assignee for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which the Letters Patent of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made.

And we hereby authorize and request the Commissioner of Patents and Trademarks and other authority in foreign countries to issue any and all patents on the invention or resulting from the application and from any and all divisions, continuations, and reissues thereof, to Assignee as assignee of our entire interest, and hereby covenant that we have the full right to convey the entire interest herein assigned, and that we have not executed and will not execute any agreement in conflict herewith.

And we further hereby covenant and agree that we will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of the invention and to such patents as may be granted therefor, to Assignee, its successors, assigns, or other legal representatives; and that if Assignee, its successors, assigns or other legal representatives shall desire to file any divisional or continuation applications or to secure a reissue of such Letters Patent, or to file a disclaimer relating thereto, we will upon request, sign all papers, make all rightful oaths and do all lawful acts requisite for the filing of such divisional or continuation application, or such application for reissue and the procuring thereof, and for the filing of such disclaimer, without further compensation but at the expense of the Assignee, its successors, assigns or other legal representatives.

HOUSTON 015301-00100-000001

And we do further covenant and agree that we will, at any time upon request, communicate to Assignee, its successors, assigns or other legal representatives, such facts relating to the invention and Letters Patent or the file history thereof as may be known to us, and testify as to the same in any interference or other litigation when requested so to do, without further compensation but at the expense of the Assignee, its successors, assigns or other legal representatives.
