Whereas, the below named inventor(s) has (have) invented certain new and useful improvements in

## AGRICULTURAL IMPLEMENT, IN PARTICULAR A MOWING MACHINE

for which the inventor(s) is (are) about to make application for letters patent of the United States, which application was duly executed on the date(s) indicated below next to each inventor's name;

Whereas, the inventor is employed under the terms of German law by Maschinenfabrik Kemper GmbH & Co KG (hereinafter Kemper) having a principal place of business at Breul, 48703 Stadlohn, Germany. Based on the German law on employee inventions, Kemper laid claim on the invention and became the owner of any rights in it.

Now, therefore, in recognition of and confirming the foregoing the inventor has and hereby does assign to Kemper the entire right, title and interest which said inventor has or may have to the invention.

The assigned rights include all rights to file US and foreign patent applications for the invention described in the name of the inventor or Kemper, as well as any right of priority to any letters patent of the United States or any other country that may be granted for the invention, and any continuations, divisions or extensions thereof. These assigned rights are to be held and enjoyed by Kemper, its successors or assigns, as fully and entirely as the same would have been held and enjoyed by each inventor had this assignment not been made.

The inventor agrees to execute all papers which Kemper, its successors or assigns deem expedient in connection with the Application and any continuing, divisional, reissue, reexamination or foreign applications concerning the invention, and to cooperate with Kemper, its successors or assigns in every proper way possible to obtain patent(s) based on the Application and any continuing, divisional, reissue, reexamination or foreign applications concerning the invention.

The inventor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any letters patent based on the assigned rights to Kemper.

In witness whereof, the inventor has signed below:
