ASSIGNMENT

Identity Of The Patent Application. I am the inventor (or one joint inventor) of a patent application that I am assigning. The patent application I am assigning is entitled Integrated Circuit Design Exhibiting Reduced Capacitance. The patent application has already been filed. It received serial number 09/652,824 and bears a filing date of August 31, 2000.

The Assignee and The Assignment. I assign my patent rights to Mosel Vitelic, Inc., a corporation organized according to the laws of Taiwan, having a place of business at No. 1 Creation Road 1, Science - Based Industrial Park, Hsinchu, Taiwan R.O.C. (hereinafter "the Assignee"). The rights I assign are my entire right, title and interest in the invention or improvements disclosed in the patent application and any and all other applications for Letters Patent of the United States and foreign countries which I may file, either solely or jointly with others, on the invention or improvements, including all continuations, divisionals, and continuations-in-part, and in any and all Letters Patent of the United States and foreign countries which may be obtained on any of said applications, and in any reissue or extension thereof. I also assign to the Assignee all priority rights under the International Convention. I further grant Assignee the right to apply for Letters Patent in foreign countries as applicant therein and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise. I agree to execute, at the request of the Assignee, all documents in connection with any application, both United States and foreign countries, for Letters Patent therefor.

Payment Received. I am making this assignment in consideration of One Dollar and other good and valuable consideration. I acknowledge the receipt and sufficiency of the consideration.

Authorizations. I request the U.S. Commissioner of Patents and Trademarks to issue the Letters Patent to the Assignee. I authorize the attorney(s) of record in the application to insert in this assignment document the date and serial number of the application.

Further Acts. I agree, upon the request and at the expense of the Assignee, to execute any divisional, continuation or substitute application for the invention or improvements, and any oath, declaration or affidavit relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon the application. I agree to perform, upon request, any affirmative acts to obtain said Letters Patent of the United States and foreign countries and to vest in the Assignee all rights therein, so that the Letters Patent will be held and enjoyed by the Assignee, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by me if this assignment had not been made.
