This Assignment relates specifically to the provision of a retractable/extendable tread portion of a tire, the tread portion provided with studs and including a secondary expandable chamber (the primary chamber being the cavity within the tire casing) which chamber effects said retraction and extension of the tread portion, hereafter referred to as the tire invention. O'Brien has ownership rights that apply or may apply to said tire invention in issued U.S. Patents (US 5,788,385, US 5,810,451 and US 6,022,082) and applications for U.S. Patents (SN 09/105,920, SN 09/497,310, SN 09/248,557) and an application in process as well as a number of corresponding foreign applications.

Now, therefore, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, O'Brien does hereby sell and assign his entire right, title and interest in and to said tire invention and in and to the above U.S. and foreign patents and applications, application in process and any improvements that he may subsequently conceive as related to said tire invention, over to POWER CLEAT LTD., an Oregon Corporation. This Assignment shall transfer all ownership rights in said tire invention over to POWER CLEAT LTD. so as to invest in POWER CLEAT LTD. such ownership rights in said tire invention the same as would be held by O'Brien had this Assignment

This Assignment is made effective Nunc pro tunc as of the 31st day of July, 2000 and memorializes the agreement between the parties made on that date.

In witness whereof the signer has executed this Assignment this 23rd day of August, 2000
