## **ASSIGNMENT OF UNITED STATES PATENTS**

In consideration of One Dollar and other good and valuable considerations, the receipt and sufficiency of which is hereby acknowledged, the undersigned hereby assigns to Accraply, Inc., a Missouri Corporation, its successors and assigns ("hereinafter Assignee"), the entire right, title and interest in the inventions and patents disclosed in the following United States Letters Patents identified in Schedule A to this Assignment, which schedule is incorporated herein by reference as if fully set forth herein.

Undersigned Assignor by these presents does sell, assign and transfer unto Assignee the entire right title and interest in and to said patents, the same to be held and enjoyed by said Assignee for its own use and for its legal representatives, successors and assigns, to the full end of the term for which said patents are granted, as fully and entirely as the same would have been held by Assignor had this assignment not been made, and including, but not limited to, letters patent that may have issued or been applied for in any other country, reissues, reexams, continuations, continuations-in-part, divisionals or substitute applications for the inventions and improvements identified in said patents and, further, Assignor hereby agrees to execute any documentation necessary for pursuing the same, including any applications or any oath or affidavits related thereto. In the event of any applications or letters patent assigned herein becoming involved in an interference, Assignor, at Assignee's expense, agrees to cooperate to the best of the ability of the undersigned in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof. The undersigned agrees to perform, upon request, any affirmative acts to obtain said letters patents of the United States or any other country and vest in said Assignee all rights therein, whereby said letters patent will be held and enjoyed by said Assignee, to the full end of the term for which said letters patent maybe granted as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.
