## ASSIGNMENT

WHEREAS, NeoPoint, Inc., (formally known as Innovative Global Solutions, Inc.) a California corporation (hereinafter "ASSIGNOR"), located at 15445 Innovation Drive, San Diego, California 92128, and previously located at 4225 Executive Square, 6<sup>th</sup> Floor, La Jolla, California 92037, is the assignee of United States patent application (Serial No. 09/237,552) listed in the attached Schedule A (hereinafter referred to as "the '552 application").

WHEREAS, Leap Wireless International, Inc., a Delaware corporation (hereinafter "ASSIGNEE"), located at 10307 Pacific Center Court, San Diego, California 92121, desires to acquire the entire right, title, and interest in the subject matter of Claims 37-41 of the '552 application and under Letters Patent or similar legal protection to be obtained therefor in the United States and in any and all foreign countries.

WHEREAS, ASSIGNOR desires to retain the entire right, title, and interest in the subject matter of claims 1-36 of the '552 application, and under Letters Patent or similar legal protection to be obtained therefor in the United States and in any and all foreign countries.

WHEREAS, ASSIGNEE is willing to allow ASSIGNOR to retain right, title and interest in the subject matter of claims 1-36 of the '552 application subject to the conveyance of assets as set forth in Section 3.7 of the Asset Purchase Agreement between the ASSIGNEE and ASSIGNOR dated December 12, 2000 (the "Agreement").

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns, and transfers to ASSIGNEE the full and exclusive right, title, and interest in and to the subject matter of Claims 37-41 of the '552 application in the United States and its territorial possessions and in all foreign countries and to all Letters Patent or similar legal protection in the United States and its territorial possessions and in any and all foreign countries to be obtained for the subject matter of Claims 37-41 of the '552 application for the full term or terms for which the same may be granted, including the right to recover for any and all past infringement of any Letters Patent or similar legal protection in the United States and its territorial possessions and in any and all foreign countries to be obtained for the subject matter of Claims 37-41 of the '552 application prior to the date of this Assignment.

ASSIGNEE retains the full and exclusive right, title and interest in and to the subject matter of claims 1-36 of the '552 application in the United States and its territorial possessions and in any and all foreign countries and to all Letters Patent or similar legal protection in the United States and its territorial possessions and in any and all foreign countries to be obtained for the subject matter of claims 1-36 of the '552 application for the full term or terms for which the same may be granted. T

ASSIGNOR shall promptly, and in no event more than ten (10) days after the closing of the Agreement, divide the subject matter of the '552 application into two divisional applications, claiming priority in application Serial No. 09/237,552: the first application including claims 1-36, and the second application including claims 37-41. ASSIGNOR shall contemporaneous with the filing of the divisional applications assign all right, title and interest in the second application to ASSIGNEE. Immediately upon the filing of the first and second divisional applications, Assignor shall abandon application serial no. 09/237,552. Promptly upon request of ASSIGNEE, ASSIGNOR shall divide any pending foreign counterpart applications into first and second divisional applications consistent with the division of the United States application as set forth above and provide ASSIGNEE notice of the division. ASSIGNOR shall contemporaneous with the filing of such divisional applications assign all right, title and interest in the second application to ASSIGNEE.

ASSIGNOR hereby warrants and covenants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this assignment and sale;

ASSIGNOR further warrants and covenants that ASSIGNEE will, upon its request, be provided promptly with all pertinent facts and documents relating to the subject matter of Claims 37-41 of the '552 application, said invention, and said Letters Patent and legal equivalents in foreign countries as may be known and accessible to ASSIGNOR, and that ASSIGNOR will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to ASSIGNEE or its legal representative any and all papers, instruments, or affidavits required to apply for, obtain, maintain, issue, and enforce any patents comprising the subject matter of Claims 37-41 of the '552 application, and equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

IN WITNESS WHEREOF, we have hereunto set hand and seal.
