PATENT ASSIGNMENT

This Patent Assignment ("Agreement") having an effective date of December 11, 2000 is by and between CIDCO Incorporated, a Delaware corporation ("Assignor"), having an address at 220 Cochrane Circle, Morgan Hill, CA 95037, and CIDCO Communications LLC, a Delaware limited liability company ("Assignee"), having an address at 4950 Patrick Henry Drive, Santa Clara, CA 95054.

WHEREAS, Assignor is the owner of new and useful inventions and discoveries for which certain patents have issued and patent applications are pending, as set forth in attached Exhibit A, (the "Patents");

WHEREAS, Assignee desires to acquire all right, title, and interest in and to said Patents; and

WHEREAS, pursuant to an Asset Purchase Agreement dated as of September 14, 2000, Assignor has agreed to sell, and Assignee has agreed to purchase, said Patents.

NOW, THEREFORE, for consideration previously provided and hereby acknowledged, Assignor hereby:

1. Assigns, transfers and conveys to Assignee the entire right, title and interest together with the benefits and privileges in and to said Patents or similar forms of protection in the United States of America and all other countries in the world, along with the related technical knowledge and know-how in and to the Patents, including all divisional, renewal, substitute, continuation and international convention applications based in whole or in part upon said inventions or discoveries, or upon said applications, and any and all patents, reissues and extensions of patents or similar forms of protection granted for said Patents in the United States of America and in all other countries in the world, and every priority right that is or may be predicated upon or arise from said Patents;

2. Authorizes Assignee to file patent applications in any or all countries or groups of countries on any or all of said inventions and discoveries in the name of Assignee or otherwise as Assignee may deem advisable, under any International Convention or any other relevant convention or treaty or otherwise;

3. Authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer said Patents or any patents, patent applications or other forms of protection based upon said Patents to Assignee, as assignee of the entire right, title and interest therein, or otherwise as Assignee may direct; and

4. Binds its successors, legal representatives and assigns, as well as Assignor, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to Assignor, all acts reasonable serving to assure that said inventions and discoveries, said patents and said applications shall be held and enjoyed by Assignee as fully and entirely as the same

could have been held and enjoyed by Assignor, its successors, legal representatives and assigns if this assignment had not been made; and particularly to execute or cause to be executed and to deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to Assignor relating to said inventions and discoveries or the history thereof; and to furnish Assignee with any and all documents, photographs, models, samples and other physical exhibits in Assignor's control or in the control of its heirs, legal representatives or assigns which may be useful for establishing any facts of its conceptions, disclosures, and reduction to practice of said inventions or discoveries.

5. Covenants and agrees with Assignee, its successors and assigns, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by it and that full right to convey the same as herein expressed is possessed by it.

IN WITNESS WHEREOF, the parties hereby have caused their names to be signed by their duly authorized representatives.
