ASSIGNMENT OF PATENT APPLICATION

WHEREAS, General Cosmetics Corp., a Corporation organized and existing under the laws of the state of New York ("ASSIGNOR"), is an assignee and owner of one or more inventions described in an application for Letters Patent of the United States that has been accorded U.S. Patent Application Serial No. 29/133,016, filed on November 20, 2000, and identified by Attorney Docket No. FOO-003; and

WHEREAS, FoodLogic LLC, a Limited Liability Company organized and existing under the laws of the state of Delaware ("ASSIGNEE"), is desirous of acquiring the entire right, title and interest in and to the patent application, in the United States of America and also in all countries foreign to the United States of America.

NOW, THEREFORE, to all whom it may concern be it known that for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR has sold, assigned and transferred and by these presents does hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, ASSIGNOR's entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the inventions described in said application, together with ASSIGNOR's entire right, title and interest in and to said application and such Letters Patent as may issue thereon or claim priority under international convention, including but not limited to continuations, divisionals, reissues, and reexaminations of said application or such Letters Patent; said inventions, applications and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made; ASSIGNOR hereby conveys all of its rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Letters Patent. ASSIGNOR hereby acknowledges that this assignment, being of its entire right, title and interest in and to said invention, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Letters Patent by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all Letters Patent to ASSIGNEE for its own name as assignee of my entire right, title and interest therein.

AND, ASSIGNOR hereby further agrees for itself and its executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including: the execution of applications for patents in foreign countries; the execution of substitution, reissue, divisional or continuation applications; and preliminary or other statements or the giving of testimony in any interference or other proceeding in which said invention or any application or patent directed thereto may be involved; and ASSIGNOR further hereby authorizes ASSIGNEE or its attorneys or agents to insert the correct serial number and filing date into this assignment if none is indicated on that date of my execution of this assignment;

AND, ASSIGNOR hereby authorizes and requests the Commissioner of Patents of the United States to issue such Letters Patent as shall be granted upon said application or applications based thereon to said ASSIGNEE, its successors, assigns, and legal representatives.

IN WITNESS WHEREOF ASSIGNOR has caused this Assignment to be signed in its corporate name by its duly authorized officer this day of May, 2001.
