ASSIGNMENT

I, John S. Ausilio, residing at 37507 Fiore Trail, Clinton Township, Michigan, having invented certain inventions or improvements for ornamental features related to a **POSITIONING BRACKET**, and having this day executed an Application for United States Patent describing the same and based thereon, for good and valuable consideration, receipt and adequacy of which is hereby freely acknowledged from Ultimate Standard Tooling International, LLC (formerly, Ultimate Standard Acquisition Co., LLC), a Delaware limited liability corporation having a principal place of business at 21320 Carlo Drive, Clinton Township, Michigan 48038 (hereinafter called the Assignee), do hereby sell, assign and transfer unto the Assignee, its successors and assigns, my entire right, title and interest, in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto, in and to and under said application (which term shall include hereinafter where the context so admits all divisional, continuing, reissue and other patent applications based thereon) and the invention (which term shall include each and every such invention, or any part thereof) therein described, and any and all patent and like rights of exclusion (including extensions thereof) of any country which may be granted on or for said inventions or on said application;

And for the same consideration I do also hereby sell, assign and transfer unto the Assignee, its successors and assigns, all my rights under the International Convention for the Protection of Industrial Property and all other treaties of like purpose in respect of said inventions and said application, and I do hereby authorize the Assignee, its successors and assigns to apply in my name or its own name or names for patents and like rights of exclusion on or for said inventions or any of them in all countries, claiming (if the assignee, its successor or assign so desires) the priority of the filing date of said application under the provisions of said Convention or any such other treaty;

And for the same consideration I do hereby jointly and severally agree for myself and for my heirs, executors and administrators, promptly upon request of the Assignee, its successors or assigns, to execute and deliver without further compensation any power of attorney, assignment, original, divisional, continuing, reissue or other application or applications for patent or patents or like rights of exclusion of any country, or other lawful documents and any further assurances that may be deemed necessary or desirable by the Assignee fully to secure to it said right, title, and interest as aforesaid in and to said inventions, application or applications, and said several patents and like rights of exclusion, or any of them, all, however, at the expense of the Assignee, its successors and/or assigns;

Docket No.:D6893-00018

And I do hereby authorize and request the Commissioner of Patents of the United States of America and the corresponding Officer of each country foreign thereto to issue to the Assignee, its successors and/or assigns any and all patents and like rights of exclusion which may be granted in any country upon said application or applications or on or for said inventions; and I do hereby covenant for myself and for my legal representatives and agree with the Assignee, its successors and assigns that I have granted no right or license to make, use or sell said inventions or any part thereof to anyone except the Assignee, that prior to the execution of this deed my right, title and interest in and to said inventions has not been otherwise encumbered, and that I have not executed and will not execute any instrument in conflict herewith.
