ASSIGNMENT

WHEREAS, I, Shinichi Hisano, have invented certain new and useful Improvements in PIPELINE ANALOG-TO-DIGITAL CONVERTER WITH ON-CHIP DIGITAL CALIBRATION described in my application for United States Patent executed on July 24th, 2001; and

WHEREAS, Signal Processing Technologies, Inc., a Delaware corporation having a principal place of business at 4755 Forge Road, Colorado Springs, Colorado 80907, is entitled to ownership of my entire right, title, and interest in, to, and under said application for United States Patent, the inventions covered thereby, and any patents that may be granted therefor in the United States and in any and all foreign countries;

NOW, THEREFORE, in consideration of Ten Dollars (\$10.00) to me in hand paid, the receipt of which is hereby acknowledged, and other good and valuable consideration, I have sold, assigned and transferred, and by these presents do sell, assign and transfer unto said Signal Processing Technologies, Inc., my entire right, title and interest in and to the invention in the United States and its territorial possessions and in all foreign countries and my entire right, title and interest in and to any and all patents which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to all divisions, reissues, continuations and extensions thereof.

I hereby authorize and request the Patent and Trademark Officials in the United States and any and all foreign countries to issue any and all of said patents, when granted, to said Signal Processing Technologies, Inc., as the assignee of my entire right, title and interest in and to the same, for the sole use and enjoyment of said Signal Processing Technologies, Inc., its successors and assigns.

Further, I agree that I will communicate to said Signal Processing Technologies, Inc., or its representatives, any facts known to me respecting said invention, and testify in any legal proceedings, sign all lawful papers, execute all division, continuation, substitution, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said patents to be issued to said Signal Processing Technologies, Inc., make all rightful oaths and generally do everything necessary or desirable to aid said Signal Processing Technologies, Inc., its successors and assigns, to obtain and enforce proper protection for said invention in the United States and in any and all foreign countries, all costs in connection therewith to be borne by said Signal Processing Technologies, Inc.

IN WITNESS WHEREOF, I have hereunto set my hand and dseal.
