PATENT SECURITY AGREEMENT

THIS PATENT SECURITY AGREEMENT (the "Agreement") made as of this 27th day of June, 2001, by totes Isotoner Corporation, an Ohio corporation ("Grantor") in favor of Bank of America, N.A., in its capacity as Collateral Agent for the Lenders party to the Loan Agreement (defined below) ("Grantee"):

W I T N E S S E T H

WHEREAS, Grantor, Grantee and Lenders are parties to a certain Loan and Security Agreement of even date herewith (as the same may be amended or otherwise modified from time to time, the "Loan Agreement"), providing for extensions of credit to be made to Grantor by Lenders; and

WHEREAS, pursuant to the terms of the Loan Agreement, Grantor has granted to Grantee, for the benefit of Lenders, a security interest in substantially all of the assets of Grantor including all right title and interest of Grantor in, to and under all now owned and hereafter acquired or arising (a) patents and patent applications and the inventions and improvements described and claimed therein, and patentable inventions; (b) the reissues, divisions, continuations, renewals, extensions and continuations-in-part of any of the foregoing; (c) all income, royalties, damages and payments now or hereafter due and/or payable under any of the foregoing or with respect to any of the foregoing, including, without limitation, damages and payments for past, present and future infringements of any of the foregoing; (d) the right to sue for past, present and future infringements of any of the foregoing; and (e) all rights corresponding to any of the foregoing throughout the world (collectively, "Patents") and all products and proceeds thereof, to secure the payment of all amounts owing by Grantor under the Loan Agreement;

NOW, THEREFORE, in consideration of the premises set forth herein and for other good and valuable consideration, receipt and sufficiency of which are hereby acknowledged, Grantor agrees as follows:

1. Incorporation of Loan Agreement. The Loan Agreement and the terms and provisions thereof are hereby incorporated herein in their entirety by this reference thereto. All terms capitalized but not otherwise defined herein shall have the same meanings herein as in the Loan Agreement.

2. Grant and Reaffirmation of Grant of Security Interests. To secure the complete and timely payment and satisfaction of the Obligations, Grantor hereby grants to Grantee, for the benefit of Lenders, and hereby reaffirms its prior grant pursuant to the Loan Agreement of, a continuing security interest in Grantor's entire right, title and interest in and to the following (all of the following items or types of property being herein collectively referred to as the "**Patent Collateral**"), whether now owned or existing and hereafter acquired or arising:

(i) each Patent, including without limitation each U.S. and Canadian patent and application for Patent listed on Schedule 1 annexed hereto, together with any reissues, continuations or extensions thereof; and

(ii) all products and proceeds of the foregoing, including, without limitation, any claim by Grantor against third parties for past, preserve or future infringement of any Patent.

3. Warranties and Representations. Grantor warrants and represents to Grantee that:

(i) Other than the Permitted Intercreditor Liens, to the best of Grantor's knowledge, Grantor is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each Patent in existence as of the date hereof, and will be with respect to each Patent acquired after the date hereof, free and clear of any liens, charges and encumbrances, including without limitation licenses, shop rights and covenants by Grantor not to sue third persons;

(ii) Except as set forth in Schedule 4.12 of the Loan Agreement, Grantor has no notice of any suits or actions commenced or threatened with reference to any Patent; and

(iii) Grantor has the unqualified right to execute and deliver this Agreement and perform its terms.

4. Restrictions on Future Agreements. Grantor agrees that until Grantor's Obligations shall have been satisfied in full and the Loan Agreement shall have been terminated, Grantor shall not, without the prior written consent of Grantee, sell or assign its interest in, or grant any license under, any Patent or enter into any other agreement with respect to any Patent the effect of which is to hypothecate or diminish Grantor's rights in such Patent, and Grantor further agrees that it shall not take any action or permit any action to be taken by others subject to its control, including licensees, or fail to take any action which would reasonably be expected to adversely affect the validity or enforcement of the rights transferred to Grantee under this Agreement.

5. New Patents. If, before Grantor's Obligations shall have been satisfied in full or before the Loan Agreement has been terminated, Grantor shall (i) become aware of any existing Patents of which Grantor has not previously informed Grantee, (ii) obtain rights to any new patentable inventions or Patents, or (iii) become entitled to the benefit of any Patents, which benefit is not in existence on the date hereof, the provisions of this Agreement above shall automatically apply thereto and, with respect to patents and patent applications, Grantor shall give to Grantee prompt written notice thereof. Grantor hereby authorizes Grantee to modify this Agreement by amending Schedule 1 to include any such Patents.

6. Duties of Grantor. Grantor shall (i) prosecute diligently any patent applications pending as of the date hereof or hereafter, (ii) make application on unpatented but patentable inventions, as reasonably deemed appropriate by Grantor, (iii) preserve and maintain all rights in the Patents and (iv) ensure that the Patents are and remain enforceable; provided, however, that the Grantor shall not be obligated to file, prosecute, preserve, maintain or ensure enforceability of any Patent that the Grantor determines in its reasonable business judgment is no longer material, necessary or desirable in the conduct of its business, as now or hereafter conducted..

7. Grantee's Right to Sue. After an Event of Default, Grantee shall have the right, but shall in no way be obligated, to bring suit in its own name to enforce the Patents and, if Grantee shall commence any such suit, Grantor shall, at the request of Grantee, do any and all lawful acts and execute any and all proper documents required by Grantee in aid of such enforcement and Grantor shall promptly, upon demand, reimburse and indemnify Grantee for all costs and expenses incurred by Grantee in the exercise of its rights under this Section 7.

8. Cumulative Remedies; Power of Attorney. Grantee hereby acknowledges and affirms that the rights and remedies with respect to the Patents, whether established hereby or by the Loan Agreement, or by any other agreements or by law shall be cumulative and may be exercised singularly or concurrently. Grantor hereby authorizes Grantee upon the occurrence of an Event of Default, to make, constitute and appoint any officer or agent of Grantee as Grantee may select, in its sole discretion, as Grantor's true and lawful attorney-in-fact, with power to (i) endorse Grantor's name on all applications, documents, papers and instruments necessary or desirable for Grantee in the use of the Patents or (ii) take any other actions with respect to the Patents as Grantee deems to be in the best interest of Grantee, or (iii) grant or issue any exclusive or non-exclusive license under the Patents to anyone, or (iv) assign, pledge, convey or otherwise transfer title in or dispose of the Patents to anyone. Grantor hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable until Grantor's Obligations shall have been paid in full and the Loan Agreement has been terminated. Grantor hereby further acknowledges and agrees that the use by Grantee of all Patents shall be worldwide, except as limited by their terms, and without any liability for royalties or other related charges from Grantee to Grantor.
