**ASSIGNMENT**

WHEREAS, we, the undersigned inventors having our residences as set forth below, have invented a new invention for

**ELECTRICAL CONNECTOR AND METHOD FOR MANUFACTURING SAME**

as described and set forth in the application for United States Letters Patent, Serial Number 09/609,619 filed on July 5, 2000; and

WHEREAS, Mannesmann VDO AG, a company organized under the laws of Germany, with its principal place of business at Kruppstraße 105, D-60388, Frankfurt am Main Germany, and Delphi Technologies, Inc., a Delaware corporation with its principle place of business at 1450 W. Long Lake, Troy, MI 48098 (hereinafter jointly referred to as "Assignees"), desire to jointly and equally acquire the entire right, title and interest in and to said invention, improvements, application and any Letters Patents which may be granted therefor or thereupon, together with any and all divisions, continuations, reissues and extensions thereof in all countries throughout the world;

NOW, THEREFORE, to all whom it may concern, be it known that, pursuant to our respective employment agreements with Assignees, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we have sold, assigned, transferred and set over, and by these presents do sell, assign, transfer and set over, unto Assignees, their successors and assigns, the entire right, title and interest in and to said invention, improvements, and into said application and any Letters Patents which may be granted therefor or thereupon, together with any and all divisions, continuations, reissues and extensions thereof, and we authorize and request the Commissioner of Patents and Trademarks to issue any Letters Patent which may be granted for or upon said invention or applications, or patents resulting therefrom, insofar as our interest is concerned, unto Assignees in accordance with this Assignment.

We also assign to Assignees, all right, title and interest in and to the invention disclosed in said application throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs throughout the world, including all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and we further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in Assignees.

We will communicate to Assignees, their successors and assigns or their representatives, any facts known to us respecting said invention and improvements; and, at the expense of Assignees, we will testify in any legal proceedings relating thereto, sign all lawful papers, execute all divisional, continuing, reissue and substitute applications, make all rightful oaths

and declarations, and, in addition, execute any and all documents required to vest title in Assignees and to aid Assignees to obtain and enforce proper protection for said invention in all countries.

We covenant that we have the full right to convey the interest assigned by this Assignment, and that we, individually or together, have not executed and will not execute any agreement in conflict with this Assignment.

This Assignment shall be binding on the parties' successors, assigns and legal representatives.
