WHEREAS I, Sulekh C. Jain, a citizen of U.S.A., residing at 4502 St. Michaels Court, Sugar Land, Texas 77479, hereinafter referred to as ASSIGNOR, have made an invention entitled "Lubrication System for Metalforming," for which I made application for Letters Patent in the United States on June 16, 2000, which application was assigned Application Serial Number 09/596,538 in the United States Patent Office; and

WHEREAS Materials and Manufacturing Technology Solutions Company, an Ohio corporation having an office and place of business at 7651 Cornell Road, Montgomery, Ohio 45242, hereinafter referred to as ASSIGNEE, is desirous of acquiring an interest in said invention and in any Letters Patent to be obtained thereon; NOW, THEREFORE, to all whom it may concern, be it known that for and in consideration of Five Dollars (\$5.00) and other valuable consideration, the receipt of which is hereby acknowledged by me, the said ASSIGNOR has sold, assigned, and transferred and by these presents does sell, assign and transfer unto the said ASSIGNEE the entire right, title and interest, throughout the world, (a) in and to said invention, as fully set forth and described in the application for United States Letters Patent, bearing the above title, executed by ASSIGNOR simultaneously herewith, and (b) in and to any rights of priority associated with said invention and application under international conventions, and said ASSIGNOR authorized and requests the Commissioner of Patents and Trademarks to issue said Letters Patent in accordance with this assignment, said invention, application, and Letters Patent to be held and enjoyed by the said ASSIGNEE to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by the said ASSIGNOR had this assignment and sale not been made.

ASSIGNOR further agrees that upon request and without additional compensation (except as hereinafter provided), he will promptly assist ASSIGNEE in every reasonable manner in the documentation, perfection, maintenance, protection and defense of ASSIGNEE's rights to said invention, including (without limitation): making further applications(s) for United States and foreign patents on said invention (including substitute, continuation, continuation-in-part, divisional and reissue applications) through any patent attorney or agent designated by ASSIGNEE whenever requested by ASSIGNEE; executing assignments to ASSIGNEE and/or its nominee; and giving all reasonable assistance in the preparation and prosecution of said application(s) and in any proceedings relating to said application(s) or any patent(s) resulting therefrom, such as by giving testimony and executing all papers considered necessary by ASSIGNEE.

ASSIGNOR's obligations under the preceding paragraph shall continue for so long as ASSIGNEE has any legal or equitable interest in the said invention, or in any patent or patent application thereon, or in any cause of action arising in connection therewith. ASSIGNEE shall assume all expenses associated with preparing, filing, prosecuting, maintaining and enforcing any patent applications and patents obtained on ASSIGNOR's invention described hereinabove, and ASSIGNEE shall reimburse ASSIGNOR for out-of-pocket expenses incurred in fulfilling ASSIGNOR's obligations under this ASSIGNMENT.

This ASSIGNMENT shall inure to the benefit of, and be binding upon the successors and assigns of, ASSIGNEE and the heirs, executors, administrators and other personal representatives of ASSIGNOR.
