ASSIGNMENT

WHEREAS, Technology Sales & Marketing, Inc., a corporation organized under the laws of the State of Florida, having a postal address of P.O. Box 89038, Tampa, Florida 33619 (hereinafter referred to as "Assignor"), is the owner of the patent and patent applications set forth on Schedule A attached hereto and made a part hereof; and

WHEREAS, LG Chem, Ltd., a corporation organized under the laws of the Republic of Korea, having general business offices at 20, Yoido-Dong, Youngdungpo-gu. Seoul 150-721 Korea (hereinafter referred to as "Assignee"), is desirous of acquiring all right, title and interest throughout the world in, to and under such patent and patent applications and any and all improvements and inventions disclosed in such patent and patent applications.

NOW, THEREFORE, be it known that, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and deliver unto Assignee, its successors and assigns, all right, title and interest in the Intellectual Property & Technology identified in Exhibit A in the United States and throughout the world in, to and under the patent and patent applications set forth on Schedule A attached thereto, together with any and all improvements and inventions disclosed therein, and all other patents, patent applications, patent rights and inventor's certificates thereof, therefore and therein, including, without limitation, any application for patent in the United States, all divisions and continuations thereof, all patents which may be granted thereon, all reissues and extensions thereof, all rights to claim and sue for past infringement thereunder, all rights to file patent applications on any such inventions or improvements in such states or nations as Assignee may choose, all patents which may be granted on any such improvements or inventions by states or nations other than the United States, or by any other authority, entity or organization, and all applications therefore.

Assignor hereby covenants and agrees, for itself and its successors and assigns, that at Assignee's reasonable request, Assignor shall execute and deliver any and all applications, affidavits, assignments and other instruments as may be necessary or desirable to secure for and vest in Assignee, its successors and assigns, any improvements, inventions, right, title, interest, application, patent, patent right or any other right or property covered by this Assignment.

Assignor will, upon Assignee's request, promptly provide Assignee with all pertinent facts and documents relating to said inventions, patents, patent applications and equivalents as may be known or accessible to Assignor, and that Assignor will, at Assignee's reasonable request and at Assignee's expense, cooperate and testify as to the same in any litigation or proceeding related thereto and will promptly execute and deliver to Assignee, its assigns or its legal representatives, any and all papers, instruments or affidavits reasonably required, render

all necessary assistance reasonably requested, and do such additional acts as Assignee may reasonably deem necessary and advisable, to apply for, obtain, maintain, issue and enforce said inventions, applications, patents and equivalents thereof or to effect, consummate, confirm, evidence or carry out the purposes of this Assignment.

The United States Commissioner of Patents and Trademarks is hereby requested and authorized to issue any and all United States patents granted on any of such applications or any of the rights or properties conveyed herein to Assignee as owner of the entire right, title and interest in, to and under the same, and appropriately empowered officials of foreign countries are hereby authorized to issue any letter patent granted on any of such applications or any of the rights or properties conveyed herein to Assignee as owner of the entire right, title and interest in, to and under the same.

IN WITNESS WHEREOF, this Assignment has been executed below by the undersigned:
