For good and valuable consideration paid to us from Allied Mineral Products, Inc., a corporation of the State of Ohio having offices at 2700 Scioto Parkway, Columbus, Ohio 43221, the receipt and sufficiency of which we acknowledge, by this Assignment;

We sell, assign, and transfer to Allied Mineral Products, Inc. our entire and undivided right, title, and interest in and to our invention of METHOD OF INSTALLING A REFRACTORY LINING, our said application for letters patent, the invention described therein, and all rights appurtenant thereto and in all our applications related thereto, including each of the following: the right to apply for any letters patent for said invention in the United States and all foreign countries, all other applications for letters patent on said invention, in whatsoever countries, including all divisional, renewal, substitute, and continuation applications based in whole or in part upon said invention or upon said application or related thereto; all letters patent that may issue thereon in the United States and foreign countries and all reissues, extensions, renewals, divisions, or continuations of letters patent granted for said inventions or upon said

applications, to the full end of the term or terms for which said letters patent may be issued; and every priority or other right accorded by every international convention, treaty, or agreement that is or may be predicated upon or arise from said invention, application and other applications or letters patent therefor, all to be held and enjoyed by Allied Mineral Products, Inc., its successors and assigns, all the same as we would have held and enjoyed had this Assignment not been made;

We authorize and grant the right to Allied Mineral Products, Inc. to file and prosecute patent applications in all countries for any part of said invention in our name or in the name of Allied Mineral Products, Inc. or otherwise, as Allied Mineral Products, Inc. may deem advisable under any international convention, treaty, or agreement or otherwise;
