ASSIGNMENT

This Assignment is made by Stephen R. Kennon, Scott A. Canann and Steven B. Ward ("Assignors").

WHEREAS, Assignors have invented a new and useful invention entitled **Method and System for Modeling Geological Structures Using an Unstructured Four-Dimensional Mesh**, for which an application for United States Letters Patent was filed on June 29, 2001 bearing Serial No. 09/896,104 which claims priority to U.S. Provisional Application Serial No. 60/215,697 filed on June 29, 2000; and

WHEREAS, Assignors believe themselves to be the original inventors of the invention including any and all improvements disclosed in said application ("Invention"); and

WHEREAS, the parties desire to have a recordable instrument assigning the entire right, title and interest in and to said Invention, said application and any patents, invention registrations or other forms of protection ("Patents") that may be granted for said inventions in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the Invention and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to **Object Reservoir, Inc.**, a Delaware Corporation, with a principal place of business at 3536 Bee Caves Road, Suite 300, Austin, Texas 78746 (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said invention, said application and any Patents that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agree that, upon request and without further compensation, but at no expense to Assignors, he/she and/or their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Patents in the United States and throughout the world for said Invention, and for perfecting, recording, or maintaining the title of
