Exhibit A
ASSIGNMENT

Unisource Worldwide, Inc. is a Delaware corporation having a place of business at 133 Peachtree Street, N.E., Atlanta, Georgia 30303 ("Unisource"). Sealed Air Corporation (US) is a Delaware corporation having a place of business at Park 80 East, Saddle Brook, New Jersey ("Sealed Air"). U.S. Patent Application Serial No. 09/598,895 entitled SYSTEM AND METHOD OF CONVEYING, STORING AND DISPENSING PACKING MATERIAL was filed on June 22, 2000 in the name(s) of Grady Landrum as inventor(s).

Sealed Air is desirous of acquiring from Unisource the right, title, and interest that Unisource has in and to this patent application, the inventions disclosed and claimed in the patent application, and any patent that may issue from this patent application.

For valuable consideration, the receipt of which is acknowledged, Unisource does hereby sell, assign, and transfer to Sealed Air, its successors and assigns Unisource's full, exclusive, and world-wide right to the invention and the entire right, title, and interest in, to, and under any Letters Patent which may be granted therefor in the United States, in the territorial possessions of the United States, and in any country foreign to the United States, and in and to all divisions, reissues, continuations, continuations-in-part, substitutions, renewals, reexaminations, and extensions thereof including the full right to claim for any such application the benefits of the International Convention, the same to be held and enjoyed by Sealed Air, its successors and assigns as fully and entirely as the same would have been held by Unisource had this assignment and sale not been made.

Unisource authorizes and requests that the U.S. Patent Office and patent office officials in countries foreign to the U.S. issue said Letters Patent to Sealed Air, as the assigns of Unisource's entire right, title, and interest in, to, and under the same, and Unisource further authorizes Sealed Air to apply for Letters Patent in Unisource's name or in its own name, as it in its sole discretion sees fit, utilizing any benefits which may exist under any International Arrangement, in any country foreign to the United States.

Unisource and its successors agree to execute any lawful document and to testify as to any material fact or thing which Sealed Air, its successors and assigns may deem necessary in order to secure unto Sealed Air, its successors and assigns the full right, title, and interest in and to and the full enjoyment of said invention or any part therefor and the said Letters Patent or any of them, the same to be done without any further consideration.

IN WITNESS WHEREOF this Assignment is signed below on September 17, 2001.
