TITLE OF INVENTION: Biopolymer Marker Indicative of Disease State Having  
a Molecular Weight of 1077 Daltons

Application Serial No. 09/846,342 Filed: April 30, 2001

-----

The Assignors having made the above invention and filed application for Letters Patent of the United States thereon, and the Assignee being desirous of acquiring the same; in consideration of One Dollar (\$1.00) and other good and valuable consideration, the Assignors hereby assign to the Assignee, including its successors, assigns, heirs, administrators, all of the Assignors right, title and interest in and to the invention and the patent application therefore identified herein and to any and all patents which may evolve therefrom;

The Assignors assign all of their right, title and interest in and to said invention in all foreign countries, and all applications for Letters Patent in foreign countries on said invention and any Letters Patent which may evolve therefrom, including the right to claim International Convention priority; and

The Assignors agree to execute any papers or perform any acts required to establish, vest or protect the Assignee's rights therein or required by Assignees to obtain said patent, without any additional payment therefor, but without any expense to Assignor.
